3. The Institutional/Corporate Shareholders (i.e. other than individuals/HUF/NRI etc.) are required to send a scanned copy (PDF/JPG format) of its Board or governing body resolution/authorization etc., with attested specimen signature of the duly authorized representative, authorizing its representative to attend the AGM through VC/OAVM on its behalf and to vote through e-voting. The said resolution/authorization shall be sent to the Company by email through its registered email address to [investor@imp-powers.com](mailto:investor@imp-powers.com) with a copy marked to [e-voting@nsdl.co.in](mailto:e-voting@nsdl.co.in) at least 48 hours before the commencement of AGM.
4. The Register of Members and the Share Transfer books of the Company will remain closed from 23<sup>rd</sup> September, 2021 to 30<sup>th</sup> September, 2021 (both days inclusive).
5. The Members can join the AGM in the VC/OAVM mode 15 minutes before the scheduled time of the commencement of the

Meeting by following the procedure mentioned in the Notice.

6. The Members attending the AGM through VC/OAVM will be counted for the purpose of reckoning the quorum under Section 103 of the Act.
7. The Explanatory Statement pursuant to Section 102 of the Companies Act, 2013 in respect of Item No. 3 to 7 above is annexed hereto and forms part of the Notice. The relevant details, pursuant to Regulations 36(3) of the Listing Regulations and Secretarial Standard on General Meetings issued by the Institute of Company Secretaries of India, in respect of Directors seeking appointment/reappointment at this AGM are also annexed to this Report.
8. The Company's Registrar and Transfer Agents for its share registry work (Physical and Electronic) are Link Intime India Private Limited.
9. Members holding shares in physical form are requested to inform the Company's Registrars and Transfer Agents (RTA), M/s. Link Intime India Private Limited immediately of any change in their address and bank details. Members holding shares in dematerialized form are requested to intimate all changes with respect to their address, bank details etc. to their respective Depository Participants. These changes will then be automatically reflected in the Company's records. This will help the Company to provide efficient and better service to the Members.
10. Members holding shares in dematerialized form are requested to register their latest Bank Account details (Core Banking Solutions enabled account number, 9 digit MICR and 11 digit IFSC code) and Permanent Account Number (PAN) with their Depository Participants with whom they are maintaining their demat accounts. Members holding shares in physical form can submit their PAN details to the Company's RTA as the same is mandated by the Securities and Exchange Board of India.
11. As per Regulation 40 of the Listing Regulations, as amended, securities of listed companies can be transferred only in dematerialized form with effect from, April 1, 2019, except in case of request received for transmission or transposition of securities. In view of this and to eliminate all risks associated with physical shares and for ease of portfolio management, members holding shares in physical form are requested to consider converting their holdings to dematerialized form. Members can contact the Company or RTA in this regard.
12. Queries on accounts may please be sent to the Company 10 (Ten) days in advance of the Annual General Meeting so that the answers may be made available at the meeting.
13. The Company is in process of transferring unclaimed amounts of Final Dividend for F.Y. 2012 –13 to the Investor Education and Protection Fund from time to time, as required under Section 124 & 125 of the Companies Act, 2013.
14. The Company is concerned about the environment protection. We request you to update your email address with your Depository Participants to enable us to send you communications via email. Members who have not registered their e-mail addresses, so far, are requested to register their e-mail addresses, in respect of electronic holdings with the Depository through their concerned Depository Participants. Members who hold shares in physical form are requested to provide their e-mail addresses to the Link Intime India Private Limited (RTA) sending an e-mail at [rnt.helpdesk@linkintime.co.in](mailto:rnt.helpdesk@linkintime.co.in) or to the Company at [investor@imp-powers.com](mailto:investor@imp-powers.com).
15. **EXPLANATORY STATEMENT PURSUANT TO SECTION 102 OF THE COMPANIES ACT, 2013 ("THE ACT"):**

The following Explanatory Statement, pursuant to Section 102 of the Companies Act, 2013 ("the Act"), sets out all material facts relating to the business mentioned at Item No. 3 to 7, of the accompanying Notice.

**Item No. 3:**

The Board of Directors, on recommendation of the Audit Committee and pursuant to Section 148 and all other applicable provisions of the Companies Act, 2013, read with the Companies (Audit and Auditors) Rules, 2014 [including any statutory modification(s) or re-enactment thereof for the time being in force], has approved the appointment and remuneration of the Cost Auditors, M/s. N. Ritesh & Associates, Cost Accountants (Firm Reg. No. R100675) to conduct the audit of the cost records of the Company for the financial year ending on 31<sup>st</sup> March, 2022. The remuneration payable to M/s. N. Ritesh & Associates shall be Rs. 50,000/- (Rupees Fifty Thousand only) plus out of pocket expenses and applicable taxes for the aforesaid audit. A Certificate issued by the above firm regarding their independence and eligibility for appointment as Cost Auditors and other relevant documents are available for inspection by the members at Corporate Office of the Company during business hours on any working day of the Company without payment of fee.

In accordance with the provisions of Section 148 and all other applicable provisions of the Companies Act, 2013, read with the Companies (Audit and Auditors) Rules 2014 and all other applicable rules, the remuneration payable to the Cost Auditors is required to be ratified subsequently by the shareholders. Accordingly, consent of the Members is sought for passing the ordinary resolution as set out at Item No. 3 of the notice for ratification of the remuneration payable to the Cost Auditors for the financial year ending on 31<sup>st</sup> March, 2022.

None of the Directors, Key Managerial Personnel of the Company or their relatives are concerned or interested, financially or otherwise, in the resolution set out at Item No. 3 of the notice. The Board of Directors recommends the Ordinary Resolution set out at Item No. 3 of the notice for approval by the Members.

**Item No.4:**

The Board of Directors of the Company ('the Board') at the meeting held on 30<sup>th</sup> June, 2021, on the recommendation of the Nomination & Compensation Committee ('the Committee'), recommended for the approval of the Members, the appointment of Smt. Khushboo Kharloya (DIN: 09168951) as Independent Directors of the Company with effect from 30<sup>th</sup> June, 2021 to 29<sup>th</sup> June, 2026, in terms of Section 149 read with Schedule IV of the Companies Act, 2013 ('the Act'), and Regulation 17 of the Securities and Exchange Board of India (Listing Obligations and Disclosure Requirements) Regulations, 2015 ('Listing Regulations 2015'), as set out in the Resolutions relating to her appointment.

The Committee and the Board are of the view that, given the knowledge, experience and performance of Smt. Khushboo Kharloya, her association would benefit the Company. Declarations have been received from Smt. Khushboo Kharloya that she meets the criteria of Independence prescribed under Section 149 of the Act read with the Companies (Appointment and Qualification of Directors) Rules, 2014 and Regulation 16 of the Listing Regulations 2015.

In the opinion of the Board, Smt. Khushboo Kharloya fulfils the conditions specified in the Act, the Rules there-under and the Listing Regulations 2015 for the appointment as Independent Directors and she is independent of the management of the Company.

Consent of the Members by way of Ordinary Resolution is required for the appointment of Smt. Khushboo Kharloya, in terms of Section 149 of the Act. Requisite Notices under Section 160 of the Act proposing the appointment of Smt. Khushboo Kharloya have been received by the Company, and consent have been filed by Smt. Khushboo Kharloya pursuant to Section 152 of the Act.

Additional information in respect of Smt. Khushboo Kharloya pursuant to the Listing Regulations 2015 and the Secretarial Standard on General Meetings is appearing in the Annexure and forming the part of this Report. Smt. Khushboo Kharloya do not hold any share in the Company, either in their individual capacity or on a beneficial basis for any other person.

Smt. Khushboo Kharloya and her relatives are interested in the Ordinary Resolution relating to her appointment. None of the other Directors and Key Managerial Personnel of the Company, or their relatives, is interested in this Ordinary Resolution. The Board of Directors recommends the Item No.4 to be passed by the members of the Company as an Ordinary Resolution.

**Particulars of Loans, Guarantees and Investments**

Details of Loans, Guarantees and Investments covered under the provisions of Section 186 of the Companies Act, 2013 are given in the notes to the Financial Statement.

**FUTURE OUTLOOK**

While once in a century Pandemic of the Covid-19, an unforeseen Force Majeure has disrupted Indian economy (and global economy too) in general and your company in particular substantially, affecting availability of raw materials from Suppliers in Red Zones, substantial increase in price of steel, metals, copper, travel restrictions affecting inspections by customers, etc.

There are sufficient order position in hand, few of the Suppliers exiting transformers business, support from the lenders and banks, rationalisation of manpower, substitute of diesel by gas and other various costs cuts, etc. The Company has transformed its customers profile with entire focus on business from Non utility customers as compared to business from govt. customers.

However, intermittent STOP-START-STOP flipping of business operations lead to lot of uncertainty, impacting our liquidity with cascading effect. In such scenario, the Company has adopted a cautious approach of Survive-Stabilise-Sustain-Grow.

The Company has taken following Operational Steps:

- Reduction in Operational Cost – Significant reduction in fixed cost i.e. Man power cost, Selling and Administrative expenses etc.
- Exit from Loss making Orders
- Renegotiation in the order prices
- Proactive steps in recovery of debtors
- Change in Business Mix – Movement from Govt. business to Non Govt. Business

For bouncing back quickly, the Company looks forward to support from its lenders / Bankers through restructuring and sale of its non-core assets.

**INTERNAL FINANCIAL CONTROLS & THEIR ADEQUACY**

Your Company's internal controls systems commensurate with the nature and size of its business operations. Adequate internal controls, systems and checks are in place and the management exercises financial controls on the operations through a well – defined budget monitoring process and other standard operating procedures.

## MANAGEMENT DISCUSSION AND ANALYSIS

### Company Philosophy on Corporate Governance

Corporate Governance is a mechanism by which the values, policies and procedures of the organisation are inculcated and manifested. The essence of Corporate Governance lies in promoting and maintaining integrity and transparency in dealings by the Promoters.

### Future Outlook

While once in a century Pandemic of the Covid-19, an unforeseen Force Majeure has disrupted Indian economy (and global economy too) in general and your company in particular substantially, affecting availability of raw materials from Suppliers in Red Zones, substantial increase in price of steel, metals, copper, travel restrictions affecting inspections by customers, etc.

There are sufficient Order position with the Company, few of the Suppliers exiting transformers business, support from the lenders and banks, rationalisation of manpower, substitute of diesel by gas and other various costs cuts, etc. The Company has transformed its customers profile with entire focus on business from Non utility. customers as compared to business from govt. customers.

However, intermittent STOP-START-STOP flipping of business operations lead to lot of uncertainty, impacting our liquidity with cascading effect. In such scenario, the Company has adopted a cautious approach of Survive-Stabilise-Sustain-Grow.

### Financial & Operational Performance

(Rs. in lakhs)

Particulars	FY 2020-21	FY 2019-20
Revenue from Operations	9526.07	26,667.47
Profit before Tax (PBT)	(10227.59)	(2133.55)
Profit after Tax (PAT)	(7217.47)	(1424.47)

### Concerns

Due to COVID-19 pandemic there are wide spread concerns about economic slowdown globally including India, with disruption of business having cascading impact on its liquidity.

### Internal Control Systems

Your Company's internal controls systems are commensurate with the nature and size of its business operations. Adequate internal controls, systems and checks are in place and the management exercises financial controls on the operations through a well – defined processes.

Overall industrial demand slackening, constraints of banking and financial support, delay in collection of Receivables from the government owned PSUs, etc.

### Human Resources

The Company continues its focus on development of human resources. The Company is a firm believer that its employees are its strength and the Company therefore respects individual rights and dignity of all its employees. The relations of the management with employees during the year continued to be cordial. Learning and development has been strengthened to bring value addition in the employee and to enhance team building leading towards success. The Company focuses on providing the employees, employee - friendly environment and culture and career growth opportunities. As the global pandemic of Chinese Corona has taken its toll on the Company's current performance, the Company, with a view to survive during such difficult times, has initiated various cost & manpower rationalisation measures.

### Cautionary Statement

Statement in the Management Discussion and Analysis describing the Company's objectives and expectations regarding future performance may be "forward looking statements" and are based on currently available information. The management believes these to be true to the best of its knowledge at the time of preparation of this report. However, these statements are subject to certain future events and uncertainties, which could cause actual results to differ materially from those, which may be indicated in such statements.

## INDEPENDENT AUDITOR'S REPORT

To the Members of IMP Powers Limited

### Report on the Audit of the Standalone Financial Statements

#### Opinion

We have audited the standalone financial statements of IMP Powers Limited ("the Company"), which comprise the balance sheet as at 31st March 2021, and the statement of Profit and Loss, (statement of changes in equity) and statement of cash flows for the year then ended, and notes to the IND As financial statements, including a summary of significant accounting policies and other explanatory information.

In our opinion and to the best of our information and according to the explanations given to us, the aforesaid standalone IND As financial statements give the information required by the Act in the manner so required and give a true and fair view in conformity with the accounting principles generally accepted in India, of the state of affairs of the Company as at March 31, 2021, and Loss, (changes in equity) and its cash flows for the year ended on that date.

#### Basis for Opinion

We conducted our audit in accordance with the Standards on Auditing (SAs) specified under section 143(10) of the Companies Act, 2013. Our responsibilities under those Standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report.

We are independent of the Company in accordance with the Code of Ethics issued by the Institute of Chartered Accountants of India together with the ethical requirements that are relevant to our audit of the financial statements under the provisions of the Companies Act, 2013 and the Rules thereunder, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the Code of Ethics. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

#### Emphasis of Matter

1. We draw attention to Note 41 of the standalone Ind AS financial statements, which states the impact of Coronavirus Disease-2019 (COVID-19) on the operations of the Company.
2. Balances of Trade Receivables, Trade Payables and Loans and advances are subject to confirmations and reconciliations.

**Our opinion is not modified in respect of these matter.**

#### Key Audit Matters

Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the financial statements of the current period. These matters were addressed in the context of our audit of the financial statements, and in forming our opinion thereon, and we do not provide a separate opinion on these matters.

We have determined the matters described below to be the key audit matters to be communicated in our report.

Key Audit Matter	Auditor's Response
<p>Litigations, provisions and Contingent Liabilities</p> <p>The Company has several litigations for direct taxes matters i .e. Income Tax under dispute which involves significant judgment and estimates on the possible outcome of the litigations and consequent provisioning thereof or disclosure as contingent liabilities .Refer Note No. 34.1 of INDAs Standalone financial statement.</p>	<p>Principal Audit Procedures</p> <p>As part of the audit process, we obtained from the management details of matters under disputes including ongoing and completed tax assessments, demands and other litigations.</p> <p>Our Audit approach for the above consists of the following audit procedures.</p> <ul style="list-style-type: none"> <li>- Evaluation and testing of the design of internal controls followed by the Company relating to litigations and open tax positions for the direct tax matters i .e. Income Tax and processed followed to decide provisioning or disclosure as contingent liabilities;</li> <li>- Discussed with Company's legal team and taxation team for sufficient understanding of on-going and potential litigation matters impacting the Company.</li> <li>- We involved our internal expert to evaluate the management's underlying judgments in making their estimates with regard to such matters.</li> </ul>

### Information other than the Financial Statements and Auditor's Report thereon

The Company's Management and Board of Directors are responsible for the other information. The other information comprises the information included in the Annual Report, but does not include the financial statements and our auditor's report thereon.

Our opinion on the financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial statements or our knowledge obtained in the audit or otherwise appears to be materially misstated. If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

### Responsibilities of Management for the Ind AS Standalone Financial Statements

The Company's Board of Directors is responsible for the matters stated in section 134(5) of the Companies Act, 2013 ("the Act") with respect to the preparation of these standalone financial statements that give a true and fair view of the financial position, financial performance, (changes in equity) and cash flows of the Company in accordance with the accounting principles generally accepted in India, including the accounting Standards specified under section 133 of the Act.

This responsibility also includes maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding of the assets of the Company and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the financial statement that give a true and fair view and are free from material misstatement, whether due to fraud or error.

In preparing the standalone financial statements, management is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so. Those Board of Directors are also responsible for overseeing the Company's financial reporting process.

### Auditor's Responsibilities for the Audit of the Standalone Ind As Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with SAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

1. Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
2. Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances. Under section 143(3)(i) of the Companies Act, 2013, we are also responsible for expressing our opinion on whether the company has adequate internal financial controls system in place and the operating effectiveness of such controls.
3. Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
4. Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.

5. Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

### **Report on Other Legal and Regulatory Requirements**

As required by the Companies (Auditor's Report) Order, 2016 ("the Order"), issued by the Central Government of India in terms of sub-section (11) of section 143 of the Companies Act, 2013, we give in the "Annexure A" a statement on the matters specified in paragraphs 3 and 4 of the Order, to the extent applicable.

As required by Section 143(3) of the Act, we report that:

1. We have sought and obtained all the information and explanations which to the best of our knowledge and belief were necessary for the purposes of our audit.
2. In our opinion, proper books of account as required by law have been kept by the Company so far as it appears from our examination of those books and proper returns adequate for the purposes of our audit.
3. The Balance Sheet, the Statement of Profit and Loss, and the Cash Flow Statement dealt with by this Report are in agreement with the books of accounts.
4. In our opinion, the aforesaid standalone financial statements comply with the Accounting Standards specified under Section 133 of the Act, read with Rule 7 of the Companies (Accounts) Rules, 2014.
5. On the basis of the written representations received from the directors as on 31st March, 2021 taken on record by the Board of Directors, none of the directors is disqualified as on 31st March, 2021 from being appointed as a director in terms of Section 164 (2) of the Act.
6. With respect to the adequacy of the internal financial controls over financial reporting of the Company and the operating effectiveness of such controls, refer to our separate Report in "Annexure B".
7. With respect to the other matters to be included in the Auditor's Report in accordance with Rule 11 of the Companies (Audit and Auditors) Rules, 2014, in our opinion and to the best of our information and according to the explanations given to us:
  - The Company has disclosed the impact of pending litigations on its financial position in its financial statements – Refer Note No.34.1 in its financial position in its standalone Ind AS financial statements
  - The Company did not have any long-term contracts including derivative contracts for which there were any material foreseeable losses.
  - An amount of Rs. 34,095 which was required to be transferred to the Investor Education and Protection Fund by the Company which has not been transferred

**The Annexure A referred to in Independent Auditors' Report to the members of the Company under the heading 'Report on Other Legal and Regulatory Requirements' on the financial statements for the year ended 31 March 2021 we report that:**

- (i) (a) The Company has maintained proper records showing full particulars, including quantitative details and situation of fixed assets
- (b) As explained to us, the fixed assets have been physically verified by the management during the year and no material discrepancies have been noticed on such verification. In our opinion this periodicity of physical verification is reasonable having regard to the size of company and nature of its assets.
- (c) The title deeds of the immovable properties as disclosed in schedule of fixed assets to the financial statements, are held in the name of the Company.
- (ii) The physical verification of inventory has been conducted at reasonable intervals by the management during the year. In respect of inventory lying with third parties, these have been confirmed by them. In our opinion, the frequency of verification is reasonable. No material discrepancies have been noticed on such verification.
- (iii) In our opinion and according to the information and explanation given to us, the Company has not granted any loans, secured or unsecured, to companies, firms, Limited Liability Partnership or other parties covered in the register maintained under Section 189 of the Act. Accordingly, paragraph 3 (iii) (a), 3 (iii) (b) and 3 (iii) (c) of the order are not applicable to the Company.
- (iv) In our opinion and according to the information and explanations given to us, during the year the Company has not granted any loans or provided any guarantees or security in respect of any loans to any party covered under Section 185 of the Act. The Company has made no investments which are covered under provision of Section 186 of the Act. Hence the clause is not applicable.
- (v) The Company has not accepted any deposits from the public within the meaning of Section 73 to 76 of the Act and Rules framed there under to extent notified.
- (vi) We have broadly reviewed the books of account maintained by the Company pursuant to the order made by the Central Government for maintenance of cost records prescribed under sub-section 1 of section 148 of the Act and are of the opinion that prima facie, the prescribed accounts and records have been made and maintained. We have, however not made a detailed examination of the said records with a view to determine whether they are accurate or complete.
- (vii) According to the information and explanations given to us and the records of the Company examined by us, in our opinion,
  - a) Undisputed statutory dues, including provident fund, employee state insurance, income tax, cess and any other material statutory dues have not been regularly deposited with the appropriate authorities and there have been delays. Undisputed amounts payable in respect thereof, which are outstanding at the year-end for a period of more than six months from the date they become payable is as follows:

Name of Statute	Nature of Dues	Amount (Rs. In Lakh)	Period to which the amount relates	Due Date	Date of Payment

## **Annexure - B to the Auditors' Report**

### **Report on the Internal Financial Controls under Clause (i) of Sub-section 3 of Section 143 of the Companies Act, 2013 ("the Act")**

We have audited the internal financial controls over financial reporting of Imp Powers Limited ("the Company") as of 31 March 2021 in conjunction with our audit of the financial statements of the Company for the year ended on that date.

#### **Management's Responsibility for Internal Financial Controls**

The Company's management is responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls over Financial Reporting issued by the Institute of Chartered Accountants of India ('ICAI'). These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Companies Act, 2013.

#### **Auditors' Responsibility**

Our responsibility is to express an opinion on the Company's internal financial controls over financial reporting based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls over Financial Reporting (the "Guidance Note") and the Standards on Auditing, issued by ICAI and deemed to be prescribed under section 143(10) of the Companies Act, 2013, to the extent applicable to an audit of internal financial controls, both applicable to an audit of Internal Financial Controls and, both issued by the Institute of Chartered Accountants of India. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over financial reporting and their operating effectiveness. Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company's internal financial controls system over financial reporting.

#### **Meaning of Internal Financial Controls Over Financial Reporting**

A company's internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial control over financial reporting includes those policies and procedures that

- (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company;
- (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorizations of management and directors of the company; and
- (3) provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

#### **Inherent Limitations of Internal Financial Controls Over Financial Reporting**

Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

**Opinion**

In our opinion and to the best of our information & according to the explanations give to us, the Company has, in all material respects, an adequate internal financial controls system over financial reporting and such internal financial controls over financial reporting were operating effectively as at 31 March 2021, based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India.

### Note 2: Basis of preparation measurement and significant accounting policies

#### 2.1. Basis of preparation and measurement

**2.1.1 Basis of Preparation :-** These financial statements for the year ended 31st March, 2021, comprising of Balance Sheet, Statement of Profit and Loss (Including other comprehensive income), Statement of Changes in Equity and Statement of Cash Flows have been prepared in accordance with the Indian Accounting Standards (hereinafter referred to as the 'Ind AS') as notified by Ministry of Corporate Affairs pursuant to Section 133 of the Companies Act, 2013 ('Act') read with of the Companies (Indian Accounting Standards) Rules, 2015 as amended and other relevant provisions of the Act.

**2.1.2 Measurement: -** These financial statements have been prepared on accrual basis and under historical cost basis.

Accounting policies have been consistently applied except where a newly issued accounting standard is initially adopted or a revision to an existing accounting standard requires a change in the accounting policy hitherto in use.

The Company has prepared these financial statements as per the format prescribed in Schedule III to The Companies Act, 2013.

#### 2.2 Change in accounting policies

##### 2.2.1 Accounting for leases

The Company's lease asset classes primarily consist of leases for Building. The Company assesses whether a contract is contains a lease, at inception of a contract. A contract is, or contains, a lease if the contract conveys the right to control the use of an identified asset for a period of time in exchange for consideration. To assess whether a contract conveys the right to control the use of an identified asset, the Company assesses whether:

- (i) the contract involves the use of an identified asset
- (ii) the Company has substantially all of the economic benefits from use of the asset through the period of the lease and
- (iii) the Company has the right to direct the use of the asset.

At the date of commencement of the lease, the Company recognizes a right-of-use asset ("ROU") and a corresponding lease liability for all lease arrangements in which it is a lessee, except for leases with a term of twelve months or less (short-term leases) and leases of low value assets. For these short-term and leases of low value assets, the Company recognizes the lease payments as an operating expense on a straight-line basis over the term of the lease.

The right-of-use assets are initially recognized at cost, which comprises the initial amount of the lease liability adjusted for any lease payments made at or prior to the commencement date of the lease plus any initial direct costs less any lease incentives. They are subsequently measured at cost less accumulated depreciation and impairment losses, if any. Right-of-use assets are depreciated from the commencement date on a straight-line basis over the shorter of the lease term.

The lease liability is initially measured at the present value of the future lease payments. The lease payments are discounted using the interest rate implicit in the lease or, if not readily determinable, using the incremental borrowing rates. The lease liability is subsequently remeasured by increasing the carrying amount to reflect interest on the lease liability and reducing the carrying amount to reflect the lease payments made.

A lease liability is remeasured upon the occurrence of certain events such as a change in the lease term or a change in an index or rate used to determine lease payments. The remeasurement normally also adjusts the leased assets.

Lease liability and ROU asset have been separately presented in the Balance Sheet and lease payments have been classified as financing cash flows.

The Company has lease contracts that include extension and termination options. These options are negotiated by management to provide flexibility in managing the leased-asset portfolio and again the Company's business needs. Management exercise significant judgment in determining whether these extension and termination option are reasonably certain to be exercised (see Note 5).

### **2.3 Current versus non-current classification**

The Company presents assets and liabilities in the balance sheet based on current/non-current classification. An asset is treated as current when it is:

- Expected to be realized or intended to be sold or consumed in normal operating cycle.
- Held primarily for the purpose of trading
- Expected to be realized within twelve months after the reporting period, or
- Cash or cash equivalent unless restricted from being exchanged or used to Settle a liability for at least twelve months after the reporting period

All other assets are classified as non-current.

A liability is current when:

- It is expected to be settled in normal operating cycle
- It is held primarily for the purpose of trading
- It is due to be settled within twelve months after the reporting period, or
- There is no unconditional right to defer the settlement of the liability for at least twelve months after the reporting period

The Company classifies all other liabilities as non-current.

Deferred tax assets and liabilities are classified as noncurrent assets and liabilities.

The operating cycle is the time between the acquisition of assets for processing and their realization in cash and cash equivalents. The Company has identified twelvemonths as its operating cycle.

### **2.4. Revenue recognition**

Revenue from Products: Revenue from sale of products and services are recognized at a time at which the properties in goods are transferred to the buyer. In determining whether an entity has right to payment, the entity shall consider whether it would have an enforceable right to demand or retain payment for good supplied.

**Revenue is recognized at the transaction price.**

Transaction price is the amount of consideration to which a company expects to be entitled in exchange for transferring promised goods or services to a customer, excluding amounts collected on behalf of third parties.

The Company does not expect to have any contracts where the period between the transfer of the promised goods or services to the customer and payment by the customer exceeds one year. As a consequence, it does not adjust any of the transaction prices for the time value of money.

Interest and Dividend Income: Interest income is recognized on a time proportion basis taking into account the amount outstanding and the rate applicable. Dividend income is recognized when the shareholders' right to receive dividend is established.

Insurance Claim: Claims receivable are accounted at the time when such income has been earned by the Company depending on the certainty of receipts.

The specific recognition criteria described below must also be met before revenue is recognized.

### **2.5. Export incentives**

Export Incentives such as Merchandise Export Incentive Scheme, is recognized in the Statement of Profit and Loss as a part of other operating revenues.

## 2.6. Taxes

### Current income tax

Current income tax assets and liabilities are measured at the amount expected to be recovered from or paid to the taxation authorities. The tax rates and tax laws used to compute the amount are those that are enacted or substantively enacted, at the reporting date in India where the Company operates and generates taxable income.

Current income tax relating to items recognized outside profit or loss is recognized outside profit or loss (either in other comprehensive income or in equity). Current tax items are recognized in correlation to the underlying transaction either in statement of profit and loss or directly in equity. Management periodically evaluates positions taken in the tax returns with respect to situations in which applicable tax regulations are subject to interpretation and establish provisions where appropriate.

## 2.7. Deferred tax

Deferred tax is provided using the liability method on temporary differences between the tax bases of assets and liabilities and their carrying amounts for financial reporting purposes at the reporting date. Deferred tax liabilities are recognized for all taxable temporary differences, except:

- When the deferred tax liability arises from the initial recognition of an asset or liability in a transaction that is not a business combination and, at the time of the transaction, affects neither the accounting profit nor taxable profit or loss

Deferred tax assets are recognized for all deductible temporary differences, the carry forward of unused tax credits and any unused tax losses. Deferred tax assets are recognized to the extent that it is probable that taxable profit will be available against which the deductible temporary differences and the carry forward of unused tax credits and unused tax losses can be utilized, except:

- When the deferred tax asset relating to the deductible temporary difference arises from the initial recognition of an asset or liability in a transaction that is not a business combination and, at the time of the transaction, affects neither the accounting profit nor taxable profit or loss

The carrying amount of deferred tax assets is reviewed at each reporting date and reduced to the extent that it is no longer probable that sufficient taxable profit will be available to allow all or part of the deferred tax asset to be utilized. Unrecognized deferred tax assets are re-assessed at each reporting date and are recognized to the extent that it has become probable that future taxable profits will allow the deferred tax asset to be recovered.

Deferred tax assets and liabilities are measured at the tax rates that are expected to apply in the year when the asset is realized or the liability is settled, based on tax rates (and tax laws) that have been enacted or substantively enacted at the reporting date.

Deferred tax relating to items recognized outside profit or loss is recognized outside profit or loss (either in other comprehensive income or in equity). Deferred tax items are recognized in correlation to the underlying transaction neither in OCI nor directly in equity.

Deferred tax assets and deferred tax liabilities are offset if a legally enforceable right exists to set off current tax assets against current tax liabilities and the deferred taxes relate to the same taxable entity and the same taxation authority.

## 2.8. Goods and Service Tax/ value added taxes paid on acquisition of assets or on incurring expenses

Expenses and assets are recognized net of the amount of GST/ paid, except:

- When the tax incurred on a purchase of assets or services is not recoverable from the taxation authority, in which case, the tax paid is recognized as part of the cost of acquisition of the asset or as part of the expense item, as applicable
- When receivables and payables are stated with the amount of tax included the net amount of tax recoverable from, or payable to, the taxation authority is included as part of receivables or payables in the balance sheet.

## 2.9. Property, plant and equipment

Property, plant and equipment is stated at cost, net of accumulated depreciation and accumulated impairment losses, if any. Capital work in progress is stated at cost. Cost comprises the purchase price and any attributable cost of bringing asset to its working condition for its intended use only. Such cost includes the cost of replacing part of the plant and equipment and borrowing costs for long-term construction projects if the recognition criteria are met. Subsequent

expenditure related to an item of fixed asset is added to its book value only if it increases the future benefits from the existing asset beyond its previously assessed standard of performance. When significant parts of plant and equipment are required to be replaced at intervals, the Company depreciates them separately based on their specific useful lives. Likewise, when a major inspection is performed, its cost is recognized in the carrying amount of the plant and equipment as a replacement if the recognition criteria are satisfied. All other repair and maintenance costs are recognized in profit or loss as incurred.

Depreciation is calculated as per schedule II of the companies act 2013 on a straight-line basis using the rates arrived at based on the useful lives estimated by the management. The Company has used the following useful lives to provide depreciation on its fixed assets. The identified components are depreciated over their useful lives; the remaining asset is depreciated over the life of the principal asset.

<b>Asset Class</b>	<b>Useful life</b>
Buildings	30 years
Plant & Machinery	15 years
Software	6 years
Air Conditioning Equipment	8 years
Furniture & Fixtures	10 years
Office Equipment	5 years
Motor Vehicles	8 years
Computer Servers	3 years
Electrical Installations	10 years
Technical Knowhow	10 years

The management believes that the depreciation rates fairly reflect its estimation of the useful lives and residual values of the fixed assets.

An item of property, plant and equipment and any significant part initially recognized is derecognized upon disposal or when no future economic benefits are expected from its use or disposal. Any gain or loss arising on derecognition of the asset (calculated as the difference between the net disposal proceeds and the carrying amount of the asset) is included in the income statement when the asset is derecognized.

The residual values, useful lives and methods of depreciation of property, plant and equipment are reviewed at each financial year end and adjusted prospectively, if appropriate.

## **2.10. Intangible assets**

Intangible assets acquired separately are measured on initial recognition at cost. Following initial recognition, intangible assets are carried at cost less any accumulated amortization and accumulated impairment losses. Internally generated intangibles, excluding capitalized development costs, are not capitalized and the related expenditure is reflected in statement of profit and loss in the period in which the expenditure is incurred.

The useful lives of intangible assets are assessed as either infinite or finite.

Intangible assets with finite lives are amortized over the useful economic life and assessed for impairment whenever there is an indication that the intangible asset may be impaired. The amortization period and the amortization method for an intangible asset with a finite useful life are reviewed at least at the end of each reporting period. Changes in the expected useful life or the expected pattern of consumption of future economic benefits embodied in the asset are considered to modify the amortization period or method, as appropriate, and are treated as changes in accounting estimates. The amortization expense on intangible assets with finite lives is recognized in the statement of profit and loss unless such expenditure forms part of carrying value of another asset.

Intangible assets with infinite useful lives are not amortized, but are tested for impairment annually, either individually or at the cash-generating unit level. The assessment of infinite life is reviewed annually to determine whether the infinite life continues to be supportable. If not, the change in useful life from indefinite to finite is made on a prospective basis.

Gains or losses arising from derecognition of an intangible asset are measured as the difference between the net disposal proceeds and the carrying amount of the asset and are recognized in the statement of profit and loss when the asset is derecognized.

Intangible assets are amortized on straight line method asunder:

- Software expenditure is amortized over a period of three years.
- Technical Knowhow expenditure is amortized over a period of ten years.

## 2.11. Borrowing costs

Borrowing costs directly attributable to the acquisition, construction or production of an asset that necessarily takes a substantial period of time to get ready for its intended use or sale are capitalized as part of the cost of the asset. All other borrowing costs are expensed in the period in which they occur. Borrowing costs consist of interest and other costs that an entity incurs in connection with the borrowing of funds. Borrowing cost also includes exchange differences to the extent regarded as an adjustment to the borrowing costs. To the extent that the Company borrows funds specifically for the purpose of obtaining a qualifying asset, the Company determines the amount of borrowing costs eligible for capitalization as the actual borrowing costs incurred on that borrowing during the period less any investment income on the temporary investment of those borrowings.

To the extent that the Company borrows funds generally and uses them for the purpose of obtaining a qualifying asset, the Company determines the amount of borrowing costs eligible for capitalization by applying a capitalization rate to the expenditures on that asset. The capitalization rate is the weighted average of the borrowing costs applicable to the borrowings of the Company that are outstanding during the period, other than borrowings made specifically for the purpose of obtaining a qualifying asset

## 2.12. Investments:

Current investments are carried at the lower of cost or quoted/ fair value, computed category-wise. Long term investments are stated at cost and provision is made for any diminution in such value, which is not temporary in nature.

## 2.13 Leases

The Company has entered into various arrangements like lease of premises which has been disclosed accordingly under Ind AS 116 At inception of a contract, the Company assesses whether contract is, or contains, lease. A contract is, or contains, a lease is the contract convey the right of control the use of an identified assets for the period of time in exchange for consideration. The assessment of whether a contract convey the right to control the use of as identified assets depends on whether the Company obtains substantially all the economic benefits from the use of the assets and whether the Company has a right to direct the use of the assets.

### 2.13.1 Company as a lessee

The Company applies a single recognition and measurement approach for all leases, except for short-term leases and leases of low value assets. The Company recognizes to make lease payments and right-of-use assets representing the right to use the underlying assets.

#### 2.13.1.1 Right-of-use assets

The Company recognizes right-of-assets at the commencement date of the lease (i.e , the date the underlying assets is available for use). The cost of right-of-use assets includes the amount of lease liabilities recognized, initial direct costs incurred, and lease payments made at or before the commencement date less any lease incentives received. Right-of-use assets are measured at cost, less any accumulated depreciation and impairment losses, and adjusted for any remeasurement of liabilities. Right-of-use assets are depreciated on a straight- basis over shorter of the lease term or the estimated useful life of the underlying assets as follows.

Assets Class	Useful life
Building	3 years

If ownership of the leased assets transfers to the Company at the end of the lease term or the cost reflects the exercise of a purchase option, depreciation is calculated using the estimated useful life of the assets. The company presents right-of- use assets separately in the balance sheet.

**2.13.1.2 Lease Liabilities**

At the commencement date of the lease, the Company recognizes lease liabilities measured at the present value of lease payments to be made over the lease term. The lease payment includes fixed payments (including in-substance fixed payments) less any lease incentives receivable, variable lease payments that depend on an index or rate, and amounts expected to be paid under residual value guarantees. The lease payment also includes the exercise price of a purchase option reasonably certain to be exercised by the Company and payments of penalties for terminating the lease, if the lease term reflects the Company exercising the option to terminate. Variable lease payments that do not depend on an index or rate are recognized as expenses (unless the cost is included in the carrying value of inventory) in the period in which the event or condition that triggers the payments occurs.

In calculating the present value of lease payment, the Company uses its incremental borrowing rate at the lease commencement date because the interest rate implicit in the lease is not readily determinable. After the commencement date, the amount of lease liabilities is increased to reflect the accretion of interest and reduced for the lease payments made. In addition, the carrying amount of lease liabilities is re-measured if there is a modification, a change in the lease terms, a change in the lease payments (e.g., changes to future payments resulting from a change in an index or rate used to determine such lease payments) or a change in the assessment of an option to purchase the underlying assets.

The Company's lease liabilities are included in current and non-current financial liabilities. Lease liabilities have been separately presented in the Balance Sheet and lease payments have been classified as financing cash flows.

**2.13.1.3 Short-term lease and leases of low-value assets**

The Company applies the short-term lease recognition exemption to the contracts which have a lease term of 12 months or less from the date of commencement date and do not contain a purchase option. It also applies the lease of low-value assets recognition exemption to the lease contract that are considered to be of low value. Lease payments on short-term leases and leases of low-value assets are recognized as expenses on a straight-line basis over the lease term.

**2.14 Inventories**

Inventories are valued at the lower of cost and net realizable value.

Costs incurred in bringing each product to its present location and conditions are accounted for as follows:

- Raw materials, components, stores and spares are valued at lower of cost and net realizable value. However, materials and other items held for use in the production of inventories are not written down below cost if the finished products in which they will be incorporated are expected to be sold at or above cost. Cost is determined on a weighted average basis.
- Work-in-progress and finished goods are valued at lower of cost and net realizable value. Cost includes direct materials and labor and a proportion of manufacturing overheads based on normal operating capacity but excluding borrowing cost. Cost of finished goods excluding GST. Cost is determined on a weighted average basis.
- Traded goods are valued at lower of cost and net realizable value. Cost includes cost of purchase and other costs incurred in bringing the inventories to their present location and condition. Cost is determined on a weighted average basis.

Net realizable value is the estimated selling price in the ordinary course of business, less estimated costs of completion and the estimated costs necessary to make the sale.

**2.15. Provisions**

Provisions are recognized when the Company has a present obligation (legal or constructive) as a result of a past event, it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation and a reliable estimate can be made of the amount of the obligation. When the Company expects some or all of a provision to be reimbursed, for example, under an insurance contract, the reimbursement is recognized as a separate asset, but only when the reimbursement is virtually certain. The expense relating to a provision is presented in the statement of profit and loss net of any reimbursement. If the effect of the time value of money is material, provisions are discounted using a current pre-tax rate that reflects, when appropriate, the risks specific to the liability. When discounting is used, the increase in the provision due to the passage of time is recognized as a finance cost.

## 2.16. Retirement and other employee benefits

### Defined Contribution plan

Retirement benefit in the form of Provident Fund is defined contribution scheme. The Company has no obligation, other than the contribution payable to the abovementioned funds. The Company recognizes contribution payable to the provident fund scheme as an expense, when an employee renders the related service. If the contribution payable to the scheme for service received before the balance sheet date exceeds the contribution already paid, the deficit payable to the scheme is recognized as a liability after deducting the contribution already paid. If the contribution already paid exceeds the contribution due for services received before the balance sheet date, then excess is recognized as an asset to the extent that the pre-payment will lead to, for example, a reduction in future payment or a cash refund.

### Defined benefit plan

The Company has a defined benefit gratuity plan, which requires contribution to be made to a separately administered fund. The Company's liability towards this benefit is determined on the basis of actuarial valuation using Projected Unit Credit Method at the date of balance sheet.

Remeasurement, comprising of actuarial gains and losses, the effect of the asset ceiling, excluding amounts included in net interest on the net defined benefit liability and the return on plan assets (excluding amounts included in net interest on the net defined benefit liability), are recognized immediately in the balance sheet with a corresponding debit or credit to retained earnings through OCI in the period in which they occur. Remeasurement is not reclassified to statement of profit and loss in subsequent periods.

### Past service costs are recognized in statement of profit and loss on the earlier of:

- The date of the plan amendment or curtailment and
- The date that the Company recognizes related restructuring costs

Net interest is calculated by applying the discount rate to the net defined benefit liability or asset. The Company recognizes the following changes in the net defined benefit obligation as an expense in statement of profit and loss:

- Service costs comprising current service costs, past service costs, gains and losses on curtailments and non-routine settlements; and
- Net interest expense or income

### Compensated absences

Accumulated leave, which is expected to be utilized within the next 12 months, is treated as short-term employee benefit and this is shown under short term provision in the Balance Sheet. The Company measures the expected cost of such absences as the additional amount that it expects to pay as a result of the unused entitlement that has accumulated at the reporting date.

The Company treats accumulated leave expected to be carried forward beyond twelve months, as long-term employee benefit for measurement purposes and this is shown under long term provisions in the Balance Sheet. Such long-term compensated absences are provided for based on the actuarial valuation using the projected unit credit method at the year-end. Actuarial gains/losses are immediately taken to the Statement of Other Comprehensive Income and are not deferred. The Company presents the leave as a current liability in the balance sheet; to the extent it does not have an unconditional right to defer its settlement for 12-month sifter the reporting dates. Where the Company has the unconditional legal and contractual right to defer the settlement for a period beyond 12 months, the same is presented as non-current liability.

### Termination benefits

The Company recognizes termination benefit as a liability and an expense when the Company has a present obligation as a result of past event, it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation and a reliable estimate can be made of the amount of the obligation. If the termination benefit falls due for more than 12-month sifter the balance sheet date, they are measured at present value of the future cash flows using the discount rate determined by reference to market yields at the balance sheet date on the government bonds.

## 2.17 Cash and cash equivalents

Cash and cash equivalent in the balance sheet comprise cash at banks and on hand and short-term deposits within original maturity of three months or less, which are subject to an insignificant risk of changes in value.

For the purpose of the statement of cash flows, cash and cash equivalents consist of cash and short-term deposits, as defined above, net of outstanding bank overdrafts as they are considered an integral part of the Company's cash management.

## **2.18. Other Financial Assets:**

The Company classifies its financial assets in the following measurement categories:

- (1) Those to be measured subsequently at fair value (either through other comprehensive income, or through the Statement of Profit and Loss), and
- (2) Those measured at amortized cost.

The classification depends on the Company's business model for managing the financial assets and the contractual terms of the cash flows.

At initial recognition, the Company measures a financial asset at its fair value. Transaction costs of financial assets carried at fair value through the Profit and Loss are expensed in the Statement of Profit and Loss.

The Company measures the expected credit loss associated with its assets based on historical trend, industry practices and the business environment in which the entity operates or any other appropriate basis. The impairment methodology applied depends on whether there has been a significant increase in credit risk.

## **2.19 Foreign currencies**

The Company's financial statements are presented in which is also the Company's functional currency. Transactions in foreign currencies are initially recorded by the Company at ₹ spot rate' at the date the transaction first qualifies for recognition. Monetary assets and liabilities denominated in foreign currencies are translated at the functional currency spot rates of exchange at the reporting date.

Exchange differences arising on settlement or translation of monetary items are recognized in statement of profit and loss.

Non-monetary items that are measured in terms of historical cost in a foreign currency are translated using the exchange rates at the rates of the initial transactions. On-monetary items measured at fair value in a foreign currency are translated using the exchange rates at the rate when the fair value is determined. The gain or loss arising on translation of non-monetary items measured at fair value is treated in line with the recognition of the gain or loss on the change in fair value of the item (i.e. translation differences on items whose fair value gain or loss is recognized in OCI or statement of profit and loss are also recognized in OCI or statement of profit and loss, respectively).

## **2.20. Earnings per Share**

Basic Earnings per share (EPS) amounts are calculated by dividing the profit for the year attributable to equity holders of the company by the weighted average number of equity shares outstanding during the year.

Diluted EPS amounts are calculated by dividing the profit attributable to equity holders of the company after adjusting impact of dilution shares by the weighted average number of equity shares outstanding during the year plus the weighted average number of equity shares that would be issued on conversion of all the dilutive potential equity shares into equity shares.

## **2.21. Contingent liabilities and assets**

A contingent liability is a possible obligation that arises from past events whose existence will be confirmed by the occurrence or non—occurrence of one or more uncertain future events not wholly within the control of the Company or a present obligation that is not recognized because it is not probable that an outflow of resources will be required to settle the obligation. A contingent liability also arises in extremely rare cases where there is a liability that cannot be recognized because it cannot be measured reliably. The Company does not recognize a contingent liability but discloses its existence in the financial statements.

A contingent asset is not recognized unless it becomes virtually certain that an inflow of economic benefits will arise. When an inflow of economic benefits is probable, contingent assets are disclosed in the financial statements. Contingent liabilities and contingent assets are reviewed at each balance sheet date.

## **2.22 Significant accounting judgments, estimates and assumptions**

The preparation of the financial statements requires management to make judgments, estimates and assumptions that affect the reported amounts of revenues, expenses, assets and liabilities, and the accompanying disclosures, and the

disclosure of contingent liabilities. Uncertainty about these assumptions and estimates could result in outcomes that require an adjustment to the carrying amount of assets or liabilities in future periods. Difference between actual results and estimates are recognized in the periods in which the results are known / materialized.

### **Estimates and assumptions**

The key assumptions concerning the future and other key sources of estimation uncertainty at the reporting date, that have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities within the next financial year, are described below. The Company has based its assumptions and estimates on parameters available when the financial statements were prepared. Existing circumstances and assumptions about future developments, however, may change due to market changes or circumstances arising that are beyond the control of the Company. Such changes are reflected in the assumptions when they occur.

#### **a) Taxes**

Uncertainties exist with respect to the interpretation of complex tax regulations and the amount and timing of future taxable income. Given the wide range of business relationships and the long-term nature and complexity of existing contractual agreements, differences arising between the actual results and the assumptions made, or future changes to such assumptions, could necessitate future adjustments to tax income and expense already recorded. The Company establishes provisions, based on reasonable estimates, for possible consequences of audits by the tax authorities of the respective countries in which it operates. The amount of such provisions is based on various factors, such as experience of previous tax audits and differing interpretations of tax regulations by the taxable entity and the responsible tax authority. Such differences of interpretation may arise on a wide variety of issues depending on the conditions prevailing in the Company's domicile. Based on approved plans and budgets, the company has estimated that the future taxable income will be sufficient to absorb MAT credit entitlement, which management believes is probable. Accordingly, the Company has recognized MAT credit as an asset.

#### **b) Defined benefit plans (gratuity benefits)**

The Company's obligation on account of gratuity, compensated absences and present value of gratuity obligation are determined based on actuarial valuations. An actuarial valuation involves making various assumptions that may differ from actual developments in the future. These include the determination of the discount rate, future salary increases and mortality rates. Due to the complexities involved in the valuation and its long-term nature, these liabilities are highly sensitive to changes in these assumptions. All assumptions are reviewed at each reporting date.

The parameter most subject to change is the discount rate. In determining the appropriate discount rate, the management considers the interest rates of government bonds in currencies consistent with the currencies of the post-employment benefit obligation.

The mortality rate is based on publicly available mortality tables. Those mortality tables tend to change only at interval in response to demographic changes. Increase in future salary and gratuity is based on expected future inflation rates. Further details about gratuity obligations are given in note 19.

### **2.23 non-current assets (or disposal groups) classified as held for sale:**

To classify any asset or disposal groups (comprising assets and liabilities) as "Asset / Disposal groups held for sale" they must be available for immediate sale and its sale must be highly probable. Such assets or group of assets / liabilities are presented separately in the Balance Sheet, in the line "Assets / Disposal groups held for sale" and "Liabilities included in disposal group held for sale" respectively. Once classified as held for sale, intangible assets and PPE are no longer amortized or depreciated. Such assets or disposal groups held for sale are stated at the lower of carrying amount and fair value less costs to sell.

#### Note:-

The Company has allotted during F.Y. 2018-19, 5,50,000 Convertible Warrants (1, 50,000 to Advance Transformers & Equipments Private Limited and 4, 00,000 to Shree Kishoriju Trading & Investments Private Limited) at Rs. 115/- per warrant pursuant to the applicable provisions of SEBI (Listing Obligations and Disclosure Requirements) Regulations, 2018 and SEBI (Issue of Capital & Disclosure Requirements) Regulations, 2019. The warrants were issued and allotted at Rs. 115/- per warrant, convertible into 1 equity share of Rs. 10/- each at a premium of Rs. 105/- per equity share. The warrants were convertible into equity shares within a period of 18 months from the date of allotment of warrants i.e. on or before 25th May, 2020.

In this regard, ATEPL and SKTIPL has informed the Company about their inability to exercise their right of conversion of said Convertible Warrants into the Equity Shares of the Company on or before May 25, 2020, inter alia, due to the prevalent unprecedented health and economic crisis caused due to Covid-19 pandemic and the resultant liquidity and other limiting factors prevalent in the country and globally. In the stated background, as the period of 18 (eighteen) months for exercising the right of conversion expired on May 25, 2020, in absence of any relaxations / relief already announced, the management has taken a note of the same and in accordance with the provisions of SEBI ICDR Regulations, the Upfront Warrant Subscription Amount of Rs. 1,58,12,500/- paid by the ATEPL and SKTIPL at the time of subscription of Convertible Warrants equivalent to 25% of the total Warrant Subscription Amount is treated as forfeited.

### Fair value hierarchy

Level 1: Level 1 hierarchy includes financial instruments measured using quoted prices. This includes listed equity instruments and mutual funds that have quoted price. The fair value of all equity instruments which are traded in the stock exchanges is valued using the closing price as at the reporting period. The mutual funds are valued using the closing NAV and listed equity instruments are being valued at the closing prices on recognised stock exchange.

Level 2: The fair value of financial instruments that are not traded in an active market (for example, traded bonds, over-the-counter derivatives) is determined using valuation techniques which maximize the use of observable market data and rely as little as possible on entity-specific estimates. If all significant inputs required to fair value an instrument are observable, the instrument is included in level 2.

Level 3: If one or more of the significant inputs is not based on observable market data, the instrument is included in level 3. This is the case for unlisted equity securities, contingent consideration and indemnification asset included in level 3.

The Company's policy is to recognise transfers into and transfers out of fair value hierarchy levels as at the end of the reporting period.

### Note 38: Financial risk management objectives and policies

The Company's activities expose it to a variety of financial risks, including market risk, credit risk and liquidity risk. The Company's primary risk management focus is to minimize potential adverse effects of market risk on its financial performance. The Company's risk management assessment and policies and processes are established to identify and analyze the risks faced by the Company, to set appropriate risk limits and controls, and to monitor such risks and compliance with the same. Risk assessment and management policies and processes are reviewed regularly to reflect changes in market conditions and the Company's activities. The Board of Directors and the Audit Committee is responsible for overseeing the Company's risk assessment and management policies and processes.

The Company's financial risk management policy is set by the management. Market risk is the risk of loss of future earnings, fair values or future cash flows that may result from a change in the price of a financial instrument. The value of a financial instrument may change as a result of changes in the interest rates, foreign currency exchange rates, equity prices and other market changes that affect market risk sensitive instruments. The Company manages market risk which evaluates and exercises independent control over the entire process of market risk management. The management recommend risk management objectives and policies, which are approved by Senior Management and the Audit Committee.

#### a. Credit risk

Credit risk is the risk of financial loss to the Company if a customer or counterparty to a financial instrument fails to meet its contractual obligations, and arises principally from the Company's receivables from customers. Credit risk arises from cash held with banks as well as credit exposure to clients, including outstanding accounts receivable. The maximum exposure to credit risk is equal to the carrying value of the financial assets. The objective of managing counterparty credit risk is to prevent losses in financial assets. The Company assesses the credit quality of the counterparties, taking into account their financial position, past experience and other factors. The Company establishes an allowance for doubtful debts and impairment that represents its estimate of incurred losses in respect of trade and other receivables and investments.

The Company's exposure to credit risk is influenced mainly by the individual characteristics of each customer. The demographics of the customer, including the default risk of the industry and country in which the customer operates, also has an influence on credit risk assessment. Credit risk is managed through continuously monitoring the creditworthiness of customers to which the Company grants credit terms in the normal course of business. An impairment analysis is performed at each reporting date on an individual basis for major customers. The Company also hold security deposits for outstanding trade receivables. The history of trade receivables shows a negligible provision for bad and doubtful debts.

#### b. Liquidity risk

Liquidity risk is the risk that the Company will not be able to meet its financial obligations as they become due. The Company manages its liquidity risk by ensuring, as far as possible, that it will always have sufficient liquidity to meet its liabilities when due.

#### Maturities of financial liabilities

The tables below analyze the company's financial liabilities into relevant maturity groupings based on their contractual maturities:

Contractual maturities of financial liabilities as at March 31, 2021	Total Carrying Value	On due within 1 year	Over 1 year Within 3 years	Over 3 year Within 5 years
Borrowings	2,174,963,080	2,161,988,317	11,568,750	1,406,014

## Notes to Financial Statements for the year ended March 31, 2021

### c. Market risk

Market risk is the risk of loss of future earnings, fair values or future cash flows that may result from adverse changes in market rates and prices (such as interest rates, foreign currency exchange rates and commodity prices) or in the price of market risk-sensitive instruments as a result of such adverse changes in market rates and prices. Market risk is attributable to all market risk-sensitive financial instruments and all short term and long-term debt. The Company is exposed to market risk primarily related to foreign exchange rate risk, interest rate risk and the market value of its investments. Thus, the Company's exposure to market risk is a function of investing and borrowing activities.

### d. Foreign exchange risk

Foreign currency risk is the risk that the fair value or future cash flows of an exposure will fluctuate because of changes in foreign exchange rates.

The Company's foreign exchange risk arises from its foreign currency borrowings (primarily in USD). As a result, if the value of the Indian rupee appreciates relative to these foreign currencies, the Company's revenues measured in Indian rupees may decrease.

The following table sets forth information relating to foreign currency exposure (other than risk arising from derivatives disclosed below):

Particulars	As at March 31, 2021		As at March 31, 2020	
	USD/Euro	INR	USD/Euro	INR
Foreign Currency Exposures (USD)	329,689	24,233,712	302,877	21,075,735
Foreign Currency Exposures (Euro)	-	-	543,634	45,013,169
<b>Total</b>		<b>24,233,712</b>		<b>66,088,904</b>

The above foreign currency exposures are not hedged by the derivative instruments.

The sensitivity of profit or loss due to changes in the exchange rates arises mainly from non-derivative foreign currency denominated financial instruments (mainly financial instruments denominated in USD). The same is summarized as below:

Particulars	Impact on Profit	
	As At March 31, 2021	As at March 31, 2020
USD Sensitivity		
INR / USD – Increase by 10%	(2,423,371)	(2,107,573)
INR / USD – Decrease by 10%	2,423,371	2,107,573

### Interest rate risk

Interest rate risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market interest rates. However the company's exposure to foreign currency loan is of fixed interest rate.

The Company's investments in term deposits (i.e., margin money) with banks are for short durations, and therefore do not expose the Company to significant interest rates risk.

Profit or loss is sensitive to higher/lower interest expense from borrowings as a result of changes in interest rates.

Particulars	Impact on profit after tax	
	As At March 31, 2021	As at March 31, 2020
Interest rates – increase by 10%	29,228,857	(20,166,549)
Interest rates – decrease by 10%	(29,228,857)	20,166,549

## **INDEPENDENT AUDITOR'S REPORT**

**To the Members of IMP Powers Limited**

### **Report on the Audit of the Consolidated Financial Statements**

#### **Opinion**

We have audited the accompanying consolidated financial statements of IMP Powers Limited ("hereinafter referred to as the Holding Company"), and its subsidiary (the Holding Company and its subsidiary referred together as "the Group") which comprise the consolidated Balance Sheet as at 31st March, 2021, the consolidated Statement of Profit and Loss (including other comprehensive income), the consolidated Cash Flow Statement, the consolidated Statement of Changes in Equity for the year ended, and a summary of the significant accounting policies and other explanatory information.

In our opinion and to the best of our information and according to the explanations given to us, the aforesaid consolidated financial statements give the information required by the Act in the manner so required and give a true and fair view in conformity with the accounting principles generally accepted in India, of the consolidated state of affairs of the Group as at 31st March, 2021, of its consolidated loss and other comprehensive income, its consolidated statement of changes in equity and consolidated cash flows for the year ended on that date.

#### **Basis for Opinion**

We conducted our audit in accordance with the Standards on Auditing (SAs) specified under section 143(10) of the Companies Act, 2013. Our responsibilities under those Standards are further described in the Auditor's Responsibilities for the Audit of the Consolidated Financial Statements section of our report.

We are independent of the Company in accordance with the Code of Ethics issued by the Institute of Chartered Accountants of India together with the ethical requirements that are relevant to our audit of the financial statements under the provisions of the Companies Act, 2013 and the Rules thereunder, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the Code of Ethics. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

#### **Emphasis of Matter**

1. We draw attention to Note 41 of the consolidated Ind AS financial statements, which states the impact of Coronavirus Disease-2019 (COVID-19) on the operations of the Company.
2. Balances of Trade Receivables, Trade Payables and Loans and advances are subject to confirmations and reconciliations.

Our opinion is not modified in respect of these matter.

#### **Key Audit Matters**

Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the separate financial statements/ consolidated financial statements and other financial information of the subsidiary, were most significant in the audit of consolidated financial statements of the current period. These matters were addressed in the context of our audit of the consolidated financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters.

We have determined that there are no key audit matters to be communicated in our consolidated audit report.

#### **Information other than the Consolidated Financial Statements and Auditor's Report thereon**

The holding Company's Board of Directors is responsible for the other information. The other information comprises the information included in the Annual Report, but does not include the financial statements and our auditor's report thereon.

Our opinion on the consolidated financial statements does not cover the other information and we do not express any form of assurance conclusion thereon. In connection with our audit of the financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the consolidated financial statements or our knowledge obtained in the audit or otherwise appears to be materially misstated. If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact.

We have nothing to report in this regard.

#### **Management's Responsibility for the Consolidated Financial Statements**

The Holding Company's Board of Directors is responsible for the matters stated in section 134(5) of the Companies Act, 2013 ("the Act") with respect to the preparation of these consolidated financial statements that give a true and fair view of the consolidated financial position, consolidated financial performance, (changes in equity) and consolidated cash flows of

the group including its subsidiaries in accordance with the accounting principles generally accepted in India, including the accounting Standards specified under section 133 of the Act.

This responsibility also includes maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding of the assets of the Company and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the financial statement that give a true and fair view and are free from material misstatement, whether due to fraud or error.

In preparing the consolidated financial statements, management is responsible for assessing the Group's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Group's or to cease operations, or has no realistic alternative but to do so. Those Board of Directors are also responsible for overseeing the Group's financial reporting process.

### **Auditor's Responsibilities for the Audit of the Financial Statements**

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with SAs, we exercise professional judgment and maintain professional scepticism throughout the audit. We also:

1. Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
2. Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances. Under section 143(3)(i) of the Companies Act, 2013, we are also responsible for expressing our opinion on whether the company has adequate internal financial controls system in place and the operating effectiveness of such controls.
3. Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
4. Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.
5. Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the consolidated financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

**Report on Other Legal and Regulatory Requirements**

As required by Section 143(3) of the Act, we report to the extent applicable. that:

1. We have sought and obtained all the information and explanations which to the best of our knowledge and belief were necessary for the purposes of our audit of the aforesaid consolidated financial statements;
2. In our opinion, proper books of account as required by law relating to preparation of the aforesaid consolidated financial statements have been kept so far as it appears from our examination of those books and the reports of the other auditors.
3. The Consolidated Balance Sheet, the Consolidated Statement of Profit and Loss, and the Consolidated Cash Flow Statement dealt with by this Report are in agreement with the books of account maintained for the purpose of preparation of the consolidated financial statements.
4. In our opinion, the aforesaid consolidated financial statements comply with the Accounting Standards specified under Section 133 of the Act, read with Rule 7 of the Companies (Accounts) Rules, 2014.
5. On the basis of the written representations received from the directors as on 31st March, 2021 taken on record by the Board of Directors, none of the directors is disqualified as on 31st March, 2021 from being appointed as a director in terms of Section 164 (2) of the Act.
6. With respect to the adequacy of the internal financial controls over financial reporting of the Company and the operating effectiveness of such controls, refer to our separate Report in "Annexure I".
7. With respect to the other matters to be included in the Auditor's Report in accordance with Rule 11 of the Companies (Audit and Auditors) Rules, 2014, in our opinion and to the best of our information and according to the explanations given to us:
  - The consolidated financial statements disclose the impact of pending litigations on its consolidated financial position of the Group, Refer Note 34.1 to the consolidated financial statements.
  - The Group did not have any long-term contracts including derivative contracts for which there were any material foreseeable losses.
  - An amount of Rs. 34,095 which was required to be transferred to the Investor Education and Protection Fund by the Holding Company which has not been transferred

## **Annexure - I to the Auditors' Report on the Consolidated Financial Statements of IMP Powers Limited**

### **Report on the Internal Financial Controls under Clause (i) of Sub-section 3 of Section 143 of the Companies Act, 2013 ("the Act")**

In conjunction with our audit of the consolidated financial statements of the Company as of and for the year ended 31 March 2021, we have audited the internal financial controls over financial reporting of IMP POWERS LIMITED ("the Holding Company") and its subsidiary Company which is incorporated in India, as of that date.

#### **Management's Responsibility for Internal Financial Controls**

The Respective Board of Directors of the Holding Company, its subsidiary Company and Associate Company, which is incorporated in India, are responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls over Financial Reporting issued by the Institute of Chartered Accountants of India ("ICAI"). These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Companies Act, 2013.

#### **Auditors' Responsibility**

Our responsibility is to express an opinion on the Holding Company's and its subsidiary's internal financial controls over financial reporting based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls over Financial Reporting (the "Guidance Note") issued by ICAI and the Standards on Auditing, issued by ICAI and deemed to be prescribed under section 143(10) of the Companies Act, 2013, to the extent applicable to an audit of internal financial controls, both issued by the Institute of Chartered Accountants of India. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over financial reporting and their operating effectiveness. Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Holding Company's and Subsidiary's internal financial controls system over financial reporting.

#### **Meaning of Internal Financial Controls Over Financial Reporting**

A company's internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial control over financial reporting includes those policies and procedures that

- (1) pertains to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the Company;
- (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorization of management and directors of the company; and
- (3) provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements

#### **Inherent Limitations of Internal Financial Controls Over Financial Reporting**

Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

**Opinion**

In our opinion, the Company and its subsidiary Company, which are incorporated in India, have, in all material respects, an adequate internal financial controls system over financial reporting and such internal financial controls over financial reporting were operating effectively as at March 31, 2021 based on the internal control over financial reporting criteria established by the respective Companies considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the ICAI.

## Notes to Financial Statements for the year ended March 31, 2021

### Note 1: Corporate information

The consolidated financial statements comprise financial statements of IMP Powers Limited ("the company") and its subsidiary of IMP Energy Limited (collectively, "the Group") for the year ended March 31, 2021. The Company is a public Company domiciled in India and incorporated under the provisions of the Companies Act applicable in India. The Group's principal business is manufacturing of transformers and is setting up of small and mini hydro power plants Company's shares are listed on two recognized stock exchanges in India.

### Note 2: Basis of Preparation, Basis of Consolidation and Summary of significant accounting policies

#### 2.1. Basis of accounting and preparation of financial statements

The financial statements of the group have been prepared in accordance with Indian Accounting Standards (Ind AS) notified under the Companies (Indian Accounting Standards) Rules, 2015. For all periods up to and including the year ended March 31, 2021, the Group prepared its financial statements in accordance with the accounting standards notified under section 133 of the Companies Act 2013, read together with paragraph 7 of the Companies (Accounts) Rules, 2014 (Indian GAAP). These financial statements have been prepared on a historical cost basis except for the certain assets and liabilities which have been measured at fair value:

#### 2.2 Basis of Consolidation

The consolidated financial statements comprise the financial statements of the Company and its subsidiaries as at March 31, 2021. Control is achieved when the Group is exposed, or has rights, to variable returns from its involvement with the investee and has the ability to affect those returns through its power over the investee. Specifically, the Group controls an investee if and only if the Group has:

- Power over the investee (i.e., existing rights that give it the current ability to direct the relevant activities of the investee)
- Exposure, or rights, to variable returns from its involvement with the investee, and
- The ability to use its power over the investee to affect its returns

Generally, there is a presumption that a majority of voting rights result in control. To support this presumption and when the Group has less than a majority of the voting or similar rights of an investee, the Group considers all relevant facts and circumstances in assessing whether it has power over an investee, including:

- The contractual arrangement with the other vote holders of the investee
- Rights arising from other contractual arrangements
- The Group's voting rights and potential voting rights
- The size of the Group's holding of voting rights relative to the size and dispersion of the holdings of the other voting rights holders

The Group re-assesses whether or not it controls an investee if facts and circumstances indicate that there are changes to one or more of the three elements of control. Consolidation of a subsidiary begins when the Group obtains control over the subsidiary and ceases when

the Group loses control of the subsidiary. Assets, liabilities, income and expenses of a subsidiary acquired or disposed of during the year are included in the consolidated financial statements from the date the Group gains control until the date the Group ceases to control the subsidiary.

Consolidated financial statements are prepared using uniform accounting policies for like transactions and other events in similar circumstances. If a member of the group uses accounting policies other than those adopted in the consolidated financial statements for like transactions and events in similar circumstances, appropriate adjustments are made to that group member's financial statements in preparing the consolidated financial statements to ensure conformity with the Group's accounting policies.

The financial statements of all entities used for the purpose of consolidation are drawn up to same reporting date as that of the parent company, i.e., year ended on March 31. When the end of the reporting period of the parent is different from that of a subsidiary, the subsidiary prepares, for consolidation purposes, additional financial information in accordance with Ind AS of the same date as the financial statements of the parent to enable the parent to consolidate the financial information of the

subsidiary, unless it is impracticable to do so.

### **Consolidation procedure**

Combine like items of assets, liabilities, equity, income, expenses and cash flows of the parent with those of its subsidiaries. For this purpose, income and expenses of the subsidiary are based on the amounts of the assets and liabilities recognized in the consolidated financial statements at the acquisition date.

Offset (eliminate) the carrying amount of the parent's investment in subsidiary and the parent's portion of equity of each subsidiary. Business combinations policy explains how to account for any related goodwill.

Eliminate in full intergroup assets and liabilities, equity, income, expenses and cash flows relating to transactions between entities of the group (profits or losses resulting from intergroup transactions that are recognized in assets, such as inventory and fixed assets, are eliminated in full). Intergroup losses may indicate an impairment that requires recognition in the consolidated financial statements. Ind AS12 Income Taxes applies to temporary differences that arise from the elimination of profits and losses resulting from intergroup transactions.

Profit or loss and each component of other comprehensive income (OCI) are attributed to the equity holders of the parent of the Group and to the non-controlling interests, even if this results in the non-controlling interests having a deficit balance. When necessary, adjustments are made to the financial statements of subsidiaries to bring their accounting policies into line with the Group's accounting policies. All intra-group assets and liabilities, equity, income, expenses and cash flows relating to transactions between members of the Group are eliminated in full on consolidation.

A change in the ownership interest of a subsidiary, without a loss of control, is accounted for as an equity transaction.

If the Group loses control over a subsidiary, it:

- Derecognises the assets (including goodwill) and liabilities of the subsidiary
- Derecognises the carrying amount of any non-controlling interests
- Derecognises the cumulative translation differences recorded in equity
- Recognises the fair value of the consideration received
- Recognises the fair value of any investment retained
- Recognises any surplus or deficit in profit or loss
- Reclassifies the parent's share of components previously recognized in OCI to profit or loss or retained earnings, as appropriate, as would be required if the Group had directly disposed of the related assets or liabilities

IMP Energy Limited is considered in the consolidated financial statements.

### **2.3. Business Combination**

As such, Indian GAAP balances relating to business combinations entered into before that date have been carried forward with minimal adjustment.

Business combinations are accounted for using the acquisition method. The cost of an acquisition is measured as the aggregate of the consideration transferred measured at fair value as on acquisition date and the amount of any non-controlling interests in the acquiree. For each business combination, the Group elects whether to measure the non-controlling interests in the acquiree at fair value or at the proportionate share of the acquiree's identifiable net assets. Acquisition-related costs are expensed as incurred.

At the acquisition date, the identifiable assets acquired and the liabilities assumed are recognized at their acquisition date fair values.

Any contingent consideration to be transferred by the acquirer is recognized at fair value at the acquisition date. Contingent consideration classified as an asset or liability that is a financial instrument and within the scope of Ind AS 109 Financial Instruments, is measured at fair value with changes in fair value recognized in the statement of profit and loss. If the contingent consideration is not within the scope of Ind AS 109, it is measured in accordance with the appropriate Ind AS. Contingent consideration that is classified as equity is not re-measured at subsequent reporting dates and subsequently its settlement is accounted for within equity.

Goodwill is initially measured at cost, being the excess of the aggregate of the consideration transferred and the amount recognized for non-controlling interests, and any previous interest held, over the net identifiable assets acquired and liabilities assumed. Any gain on a bargain purchase is recognized in other comprehensive

income and accumulated in equity as capital reserve if there exists clear evidence, of the underlying reasons for classifying the

business combination as resulting in a bargain purchase; otherwise, the gain is recognized in equity as capital reserve.

After initial recognition, goodwill is measured at cost less any accumulated impairment losses. For the purpose of impairment testing, goodwill acquired in a business combination is, from the acquisition date, allocated to each of the Group's cash-generating units that are expected to benefit from the combination, irrespective of whether other assets or liabilities of the acquiree are assigned to those units.

Cash generating unit to which goodwill has been allocated is tested for impairment annually, or more frequently when there is an indication that the unit may be impaired. If the recoverable amount of the cash generating unit is less than its carrying amount, the impairment loss is allocated first to reduce the carrying amount of any goodwill allocated to the unit and then to the other assets of the unit pro rata based on the carrying amount of each asset in the unit. Any impairment loss for goodwill is recognized in the statement of profit and loss. An impairment loss recognized for goodwill is not reversed in subsequent periods.

Where goodwill has been allocated to a cash-generating unit and part of the operation within that unit is disposed of, the goodwill associated with the disposed operation is included in the carrying amount of the operation when determining the gain or loss on disposal. Goodwill disposed in these circumstances is measured based on the relative values of the disposed operation and the portion of the cash generating unit retained.

## 2.4 Change in accounting policies

### 2.4.1 Accounting for leases

The Company's lease asset classes primarily consist of leases for Building. The Company assesses whether a contract is contains a lease, at inception of a contract. A contract is, or contains, a lease if the contract conveys the right to control the use of an identified asset for a period of time in exchange for consideration. To assess whether a contract conveys the right to control the use of an identified asset, the Company assesses whether:

the contract involves the use of an identified asset

the Company has substantially all of the economic benefits from use of the asset through the period of the lease and

the Company has the right to direct the use of the asset.

At the date of commencement of the lease, the Company recognizes a right-of-use asset ("ROU") and a corresponding lease liability for all lease arrangements in which it is a lessee, except for leases with a term of twelve months or less (short-term leases) and leases of low value assets. For these short-term and leases of low value assets, the Company recognizes the lease payments as an operating expense on a straight-line basis over the term of the lease.

The right-of-use assets are initially recognized at cost, which comprises the initial amount of the lease liability adjusted for any lease payments made at or prior to the commencement date of the lease plus any initial direct costs less any lease incentives. They are subsequently measured at cost less accumulated depreciation and impairment losses, if any. Right-of-use assets are depreciated from the commencement date on a straight-line basis over the shorter of the lease term.

The lease liability is initially measured at the present value of the future lease payments. The lease payments are discounted using the interest rate implicit in the lease or, if not readily determinable, using the incremental borrowing rates. The lease liability is subsequently remeasured by increasing the carrying amount to reflect interest on the lease liability and reducing the carrying amount to reflect the lease payments made.

A lease liability is remeasured upon the occurrence of certain events such as a change in the lease term or a change in an index or rate used to determine lease payments. The remeasurement normally also adjusts the leased assets. Lease liability and ROU asset have been separately presented in the Balance Sheet and lease payments have been classified as financing cash flows.

The Company has lease contracts that include extension and termination options. These options are negotiated by management to provide flexibility in managing the leased-asset portfolio and again the Company's business needs. Management exercise significant judgment in determining whether these extension and termination option are reasonably certain to be exercised (see Note 5).

### 2.4.2 Current versus non-current classification

The Company presents assets and liabilities in the balance sheet based on current/non-current classification. An asset is treated as current when it is:

Expected to be realized or intended to be sold or consumed in normal operating cycle.

Held primarily for the purpose of trading

Expected to be realized within twelve months after the reporting period, or

Cash or cash equivalent unless restricted from being exchanged or used to Settle a liability for at least twelve months after the reporting period

All other assets are classified as non-current.

A liability is current when:

It is expected to be settled in normal operating cycle

It is held primarily for the purpose of trading

It is due to be settled within twelve months after the reporting period, or

There is no unconditional right to defer the settlement of the liability for at least twelve months after the reporting period

The Company classifies all other liabilities as non-current.

Deferred tax assets and liabilities are classified as noncurrent assets and liabilities.

The operating cycle is the time between the acquisition of assets for processing and their realization in cash and cash equivalents. The Company has identified twelvemonths as its operating cycle.

### **2.4.3 Revenue recognition**

**Revenue from Products:** Revenue from sale of products and services are recognized at a time at which the properties in goods are transferred to the buyer. In determining whether an entity has right to payment, the entity shall consider whether it would have an enforceable right to demand or retain payment for good supplied.

Revenue is recognized at the transaction price.

Transaction price is the amount of consideration to which a company expects to be entitled in exchange for transferring promised goods or services to a customer, excluding amounts collected on behalf of third parties.

The Company does not expect to have any contracts where the period between the transfer of the promised goods or services to the customer and payment by the customer exceeds one year. As a consequence, it does not adjust any of the transaction prices for the time value of money.

**Interest and Dividend Income:** Interest income is recognized on a time proportion basis taking into account the amount outstanding and the rate applicable. Dividend income is recognized when the shareholders' right to receive dividend is established.

**Insurance Claim:** Claims receivable are accounted at the time when such income has been earned by the Company depending on the certainty of receipts.

**Rent:** Rent Income is recognized on the accrual basis based on agreement entered by the Company with the tenants

The specific recognition criteria described below must also be met before revenue is recognized.

### **2.4.4. Export incentives**

Export Incentives such as Merchandise Export Incentive Scheme, is recognized in the Statement of Profit and Loss as a part of other operating revenues.

### **2.4.5 Taxes**

#### **Current income tax**

Current income tax assets and liabilities are measured at the amount expected to be recovered from or paid to the taxation authorities. The tax rates and tax laws used to compute the amount are those that are enacted or substantively enacted, at the reporting date in India where the Company operates and generates taxable income.

Current income tax relating to items recognized outside profit or loss is recognized outside profit or loss (either in other comprehensive income or in equity). Current tax items are recognized in correlation to the underlying transaction either in statement of profit and loss or directly in equity. Management periodically evaluates positions taken in the tax returns with respect to situations in which applicable tax regulations are subject to interpretation and establishes provisions where appropriate.

#### **Deferred tax**

Deferred tax is provided using the liability method on temporary differences between the tax bases of assets and liabilities and their carrying amounts for financial reporting purposes at the reporting date. Deferred tax liabilities are recognized for all taxable temporary differences, except:

When the deferred tax liability arises from the initial recognition of an asset or liability in a transaction that is not a business

combination and, at the time of the transaction, affects neither the accounting profit nor taxable profit or loss

Deferred tax assets are recognized for all deductible temporary differences, the carry forward of unused tax credits and any unused tax losses. Deferred tax assets are recognized to the extent that it is probable that taxable profit will be available against which the deductible temporary differences and the carry forward of unused tax credits and unused tax losses can be utilized, except:

When the deferred tax asset relating to the deductible temporary difference arises from the initial recognition of an asset or liability in a transaction that is not a business combination and, at the time of the transaction, affects neither the accounting profit nor taxable profit or loss

The carrying amount of deferred tax assets is reviewed at each reporting date and reduced to the extent that it is no longer probable that sufficient taxable profit will be available to allow all or part of the deferred tax asset to be utilized. Unrecognized deferred tax assets are re-assessed at each reporting date and are recognized to the extent that it has become probable that future taxable profits will allow the deferred tax asset to be recovered.

Deferred tax assets and liabilities are measured at the tax rates that are expected to apply in the year when the asset is realized or the liability is settled, based on tax rates (and tax laws) that have been enacted or substantively enacted at the reporting date.

Deferred tax relating to items recognized outside profit or loss is recognized outside profit or loss (either in other comprehensive income or in equity). Deferred tax items are recognized in correlation to the underlying transaction neither in OCI nor directly in equity.

Deferred tax assets and deferred tax liabilities are offset if a legally enforceable right exists to set off current tax assets against current tax liabilities and the deferred taxes relate to the same taxable entity and the same taxation authority.

#### **Goods and Service Tax/ value added taxes paid on acquisition of assets or on incurring expenses**

Expenses and assets are recognized net of the amount of GST/ paid, except:

When the tax incurred on a purchase of assets or services is not recoverable from the taxation authority, in which case, the tax paid is recognized as part of the cost of acquisition of the asset or as part of the expense item, as applicable

When receivables and payables are stated with the amount of tax included the net amount of tax recoverable from, or payable to, the taxation authority is included as part of receivables or payables in the balance sheet.

#### **2.4.6 Property, plant and equipment**

Property, plant and equipment is stated at cost, net of accumulated depreciation and accumulated impairment losses, if any. Capital work in progress is stated at cost. Cost comprises the purchase price and any attributable cost of bringing asset to its working condition for its intended use only. Such cost includes the cost of replacing part of the plant and equipment and borrowing costs for long-term construction projects if the recognition criteria are met. Subsequent expenditure related to an item of fixed asset is added to its book value only if it increases the future benefits from the existing asset beyond its previously assessed standard of performance. When significant parts of plant and equipment are required to be replaced at intervals, the Company depreciates them separately based on their specific useful lives. Likewise, when a major inspection is performed, its cost is recognized in the carrying amount of the plant and equipment as a replacement if the recognition criteria are satisfied. All other repair and maintenance costs are recognized in profit or loss as incurred.

Depreciation is calculated as per schedule II of the companies act 2013 on a straight-line basis using the rates arrived at based on the useful lives estimated by the management. The Company has used the following useful lives to provide depreciation on its fixed assets. The identified components are depreciated over their useful lives; the remaining asset is depreciated over the life of the principal asset.

##### **Asset Class Useful life**

Buildings	30 years
Plant & Machinery	15 years
Software	6 years
Air Conditioning Equipment	8 years
Furniture & Fixtures	10 years
Office Equipment	5 years
Motor Vehicles	8 years
Computer Servers	3 years
Electrical Installations	10 years

The management believes that the depreciation rates fairly reflect its estimation of the useful lives and residual values of the fixed assets.

An item of property, plant and equipment and any significant part initially recognized is derecognized upon disposal or when no future economic benefits are expected from its use or disposal. Any gain or loss arising on derecognition of the asset (calculated as the difference between the net disposal proceeds and the carrying amount of the asset) is included in the income statement when the asset is derecognized.

The residual values, useful lives and methods of depreciation of property, plant and equipment are reviewed at each financial year end and adjusted prospectively, if appropriate.

#### **2.4.7 Intangible assets**

Intangible assets acquired separately are measured on initial recognition at cost. Following initial recognition, intangible assets are carried at cost less any accumulated amortization and accumulated impairment losses. Internally generated intangibles, excluding capitalized development costs, are not capitalized and the related expenditure is reflected in statement of profit and loss in the period in which the expenditure is incurred.

The useful lives of intangible assets are assessed as either infinite or finite.

Intangible assets with finite lives are amortized over the useful economic life and assessed for impairment whenever there is an indication that the intangible asset may be impaired. The amortization period and the amortization method for an intangible asset with a finite useful life are reviewed at least at the end of each reporting period. Changes in the expected useful life or the expected pattern of consumption of future economic benefits embodied in the asset are considered to modify the amortization period or method, as appropriate, and are treated as changes in accounting estimates. The amortization expense on intangible assets with finite lives is recognized in the statement of profit and loss unless such expenditure forms part of carrying value of another asset.

Intangible assets with infinite useful lives are not amortized, but are tested for impairment annually, either individually or at the cash-generating unit level. The assessment of infinite life is reviewed annually to determine whether the infinite life continues to be supportable. If not, the change in useful life from indefinite to finite is made on a prospective basis.

Gains or losses arising from derecognition of an intangible asset are measured as the difference between the net disposal proceeds and the carrying amount of the asset and are recognized in the statement of profit and loss when the asset is derecognized.

Intangible assets are amortized on straight line method asunder:

Software expenditure is amortized over a period of three years.

Technical Knowhow expenditure is amortized over a period of ten years.

#### **2.4.8 Borrowing costs**

Borrowing costs directly attributable to the acquisition, construction or production of an asset that necessarily takes a substantial period of time to get ready for its intended use or sale are capitalized as part of the cost of the asset. All other

borrowing costs are expensed in the period in which they occur. Borrowing costs consist of interest and other costs that an entity incurs in connection with the borrowing of funds. Borrowing cost also includes exchange differences to the extent regarded as an adjustment to the borrowing costs. To the extent that the Company borrows funds specifically for the purpose of obtaining a qualifying asset, the Company determines the amount of borrowing costs eligible for capitalization as the actual borrowing costs incurred on that borrowing during the period less any investment income on the temporary investment of those borrowings.

To the extent that the Company borrows funds generally and uses them for the purpose of obtaining a qualifying asset, the Company determines the amount of borrowing costs eligible for capitalization by applying a capitalization rate to the expenditures on that asset. The capitalization rate is the weighted average of the borrowing costs applicable to the borrowings of the Company that are outstanding during the period, other than borrowings made specifically for the purpose of obtaining a qualifying asset

#### **2.4.9 Investments:**

Current investments are carried at the lower of cost or quoted/ fair value, computed category-wise. Long term investments are stated at cost and provision is made for any diminution in such value, which is not temporary in nature.

#### **2.4.10 Leases**

The Company has entered into various arrangements like lease of premises which has been disclosed accordingly under Ind AS

116 At inception of a contract, the Company assesses whether contract is, or contains, lease. A contract is, or contains, a lease is the contract convey the right of control the use of an identified assets for the period of time in exchange for consideration. The assessment of whether a contract convey the right to control the use of as identified assets depends on whether the Company obtains substantially all the economic benefits from the use of the assets and whether the Company has a right to direct the use of the assets.

#### 2.4.11 Company as a lessee

The Company applies a single recognition and measurement approach for all leases, except for short-term leases and leases of low value assets. The Company recognizes to make lease payments and right-of-use assets representing the right to use the underlying assets.

#### 2.4.12. Right-of-use assets

The Company recognizes right-of-assets at the commencement date of the lease (i.e the date the underlying assets is available for use). The cost of right-of-use assets includes the amount of lease liabilities recognized, initial direct costs incurred, and lease payments made at or before the commencement date less any lease incentives received. Right-of-use assets are measured at cost, less any accumulated depreciation and impairment losses, and adjusted for any remeasurement of liabilities. Right-of-use assets are depreciated on a straight- basis over shorter of the lease term or the estimated useful life of the underlying assets as follows.

Assets Class	Useful life
Building	3 years

If ownership of the leased assets transfers to the Company at the end of the lease term or the cost reflects the exercise of a purchase option, depreciation is calculated using the estimated useful life of the assets. The company presents right-of- use assets separately in the balance sheet.

#### 2.4.13 Lease Liabilities

At the commencements date of the lease, the Company recognizes lease liabilities measured at the present value of lease payments to be made over the lease term. The lease payment includes fixed payments (including in-substance fixed payments) less any lease incentives receivable, variable lease payments that depend on an index or rate, and amounts expected to be paid under residual value guarantees. The lease payment also includes the exercise price of a purchase option reasonably certain to be exercised by the Company and payments of penalties for terminating the lease, if the lease term reflects the Company exercising the option to terminate. Variable lease payments that do not depend on an index or rare are recognized as expenses (unless the const is included in the carrying value of inventor) in the period in which the event or condition that triggers the payments occurs.

In calculating the present value of lease payment, the Company uses its incremental borrowing rate at the lease commencement date because the interest rate implicit in the lease is not readily determinable. After the commencement date, the amount lease liabilities is increased to reflect the accretion of interest and reduces for the lease payment made. In addition, the carrying amount of lease liabilities is re measured if there is a modification, a change in the lease terms, a change in the lease payments (e.g. changes to future payments resulting from a change in an index or rate used to determine such lease payments) or a change in the assessment of an option to purchase the underlying assets.

The Company's lease liabilities are included in current and non-current financial; liabilities. Lease liabilities have been separately presented in the Balance Sheet and lease payments have been classified as financing cash flows.

#### 2.4.14 Short-term lease and leases of low-value assets

The Company applies the short-term lease recognition exemption to the contracts which have a lease term of 12 months or less from the date of commencement date and do not contain a purchase option. It also applies the lease of low-value assets recognition exemption to the lease contract that are considered to the low value. Lease payments on short-term leases and leases of low-value assets are recognized as expenses on a straight –line basis over the lease term.

#### 2.4.15 Inventories

Inventories are valued at the lower of cost and net realizable value.

Costs incurred in bringing each product to its present location and conditions are accounted for as follows:

Raw materials, components, stores and spares are valued at lower of cost and net realizable value. However, materials and other items held for use in the production of inventories are not written down below cost if the finished products in which they will be incorporated are expected to be sold at or above cost. Cost is determined on a weighted average basis.

Work-in-progress and finished goods are valued at lower of cost and net realizable value. Cost includes direct materials and

labor and a proportion of manufacturing overheads based on normal operating capacity but excluding borrowing cost. Cost of finished goods excluding GST. Cost is determined on a weighted average basis.

Traded goods are valued at lower of cost and net realizable value. Cost includes cost of purchase and other costs incurred in bringing the inventories to their present location and condition. Cost is determined on a weighted average basis.

Net realizable value is the estimated selling price in the ordinary course of business, less estimated costs of completion and the estimated costs necessary to make the sale.

#### **2.4.16 Provisions**

Provisions are recognized when the Company has a present obligation (legal or constructive) as a result of a past event, it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation and a reliable estimate can be made of the amount of the obligation. When the Company expects some or all of a provision to be reimbursed, for example, under an insurance contract, the reimbursement is recognized as a separate asset, but only when the reimbursement is virtually certain. The expense relating to a provision is presented in the statement of profit and loss net of any reimbursement. If the effect of the time value of money is material, provisions are discounted using a current pre-tax rate that reflects, when appropriate, the risks specific to the liability. When discounting is used, the increase in the provision due to the passage of time is recognized as a finance cost.

#### **2.4.17 Retirement and other employee benefits**

##### **Defined Contribution plan**

Retirement benefit in the form of Provident Fund is defined contribution scheme. The Company has no obligation, other than the contribution payable to the abovementioned funds. The Company recognizes contribution payable to the provident fund scheme as an expense, when an employee renders the related service. If the contribution payable to the scheme for service received before the balance sheet date

exceeds the contribution already paid, the deficit payable to the scheme is recognized as a liability after deducting the contribution already paid. If the contribution already paid exceeds the contribution due for services received before the balance sheet date, then excess is recognized as an asset to the extent that the pre-payment will lead to, for example, a reduction in future payment or a cash refund.

##### **Defined benefit plan**

The Company has a defined benefit gratuity plan, which requires contribution to be made to a separately administered fund. The Company's liability towards this benefit is determined on the basis of actuarial valuation using Projected Unit Credit Method at the date of balance sheet.

Remeasurement, comprising of actuarial gains and losses, the effect of the asset ceiling, excluding amounts included in net interest on the net defined benefit liability and the return on plan assets (excluding amounts included in net interest on the net defined benefit liability), are recognized immediately in the balance sheet with a corresponding debit or credit to retained earnings through OCI in the period in which they occur. Remeasurement is not reclassified to statement of profit and loss in subsequent periods.

Past service costs are recognized in statement of profit and loss on the earlier of:

- The date of the plan amendment or curtailment and
- The date that the Company recognizes related restructuring costs

Net interest is calculated by applying the discount rate to the net defined benefit liability or asset. The Company recognizes the following changes in the net defined benefit obligation as an expense in statement of profit and loss:

- Service costs comprising current service costs, past service costs, gains and losses on curtailments and non-routine settlements; and
- Net interest expense or income

##### **Compensated absences**

Accumulated leave, which is expected to be utilized within the next 12 months, is treated as short-term employee benefit and this is shown under short term provision in the Balance Sheet. The Company measures the expected cost of such absences as the additional amount that it expects to pay as a result of the unused entitlement that has accumulated at the reporting date.

The Company treats accumulated leave expected to be carried forward beyond twelve months, as long-term employee benefit for measurement purposes and this is shown under long term provisions in the Balance Sheet. Such long-term compensated

absences are provided for based on the actuarial valuation using the projected unit credit method at the year-end. Actuarial gains/losses are immediately taken to the Statement of Other Comprehensive Income and are not deferred. The Company presents the leave as a current liability in the balance sheet; to the extent it does not have an unconditional right to defer its settlement for 12-month sifter the reporting

dates. Where the Company has the unconditional legal and contractual right to defer the settlement for a period beyond 12 months, the same is presented as non-current liability.

#### **Termination benefits**

The Company recognizes termination benefit as a liability and an expense when the Company has a present obligation as a result of past event, it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation and a reliable estimate can be made of the amount of the obligation. If the termination benefit falls due for more than 12-month sifter the balance sheet date, they are measured at present value of the future cash flows using the discount rate determined by reference to market yields at the balance sheet date on the government bonds.

#### **2.4.18 Cash and cash equivalents**

Cash and cash equivalent in the balance sheet comprise cash at banks and on hand and short-term deposits within original maturity of three months or less, which are subject to an insignificant risk of changes in value.

For the purpose of the statement of cash flows, cash and cash equivalents consist of cash and short-term deposits, as defined above, net of outstanding bank overdrafts as they are considered an integral part of the Company's cash management.

#### **2.4.19 Other Financial Assets:**

The Company classifies its financial assets in the following measurement categories:

Those to be measured subsequently at fair value (either through other comprehensive income, or through the Statement of Profit and Loss), and

Those measured at amortized cost.

The classification depends on the Company's business model for managing the financial assets and the contractual terms of the cash flows.

At initial recognition, the Company measures a financial asset at its fair value. Transaction costs of financial assets carried at fair value through the Profit and Loss are expensed in the Statement of Profit and Loss.

The Company measures the expected credit loss associated with its assets based on historical trend, industry practices and the business environment in which the entity operates or any other appropriate basis. The impairment methodology applied depends on whether there has been a significant increase in credit risk.

#### **2.4.20 Foreign currencies**

The Company's financial statements are presented in which is also the Company's functional currency. Transactions in foreign currencies are initially recorded by the Company at ₹ spot rate' at the date the transaction first qualifies for recognition. Monetary assets and liabilities denominated in foreign currencies are translated at the functional currency spot rates of exchange at the reporting date.

Exchange differences arising on settlement or translation of monetary items are recognized in statement of profit and loss.

Non-monetary items that are measured in terms of historical cost in a foreign currency are translated using the exchange rates at the rates of the initial transactions. On-monetary items measured at fair value in a foreign currency are translated using the exchange rates at the rate when the fair value is determined. The gain or loss arising on translation of non-monetary items measured at fair value is treated in line with the recognition of the gain or loss on the change in fair value of the item (i.e translation differences on items whose fair value gain or loss is recognized in OCI or statement of profit and loss are also recognized in OCI or statement of profit and loss, respectively).

#### **2.4.21. Earnings per Share**

Basic Earnings per share (EPS) amounts are calculated by dividing the profit for the year attributable to equity holders of the company by the weighted average number of equity shares outstanding during the year.

Diluted EPS amounts are calculated by dividing the profit attributable to equity holders of the company after adjusting impact of dilution shares by the weighted average number of equity shares outstanding during the year plus the weighted average number of equity shares that would be issued on conversion of all the dilutive potential equity shares into equity shares.

#### **2.4.22. Contingent liabilities and assets**

A contingent liability is a possible obligation that arises from past events whose existence will be confirmed by the occurrence or non—occurrence of one or more uncertain future events not wholly within the control of the Company or a present obligation that is not recognized because it is not probable that an outflow of resources will be required to settle the obligation. A contingent liability also arises in extremely rare cases where there is a liability that cannot be recognized because it cannot be measured reliably. The Company does not recognize a contingent liability but discloses its existence in the financial statements.

A contingent asset is not recognized unless it becomes virtually certain that an inflow of economic benefits will arise. When an inflow of economic benefits is probable, contingent assets are disclosed in the financial statements. Contingent liabilities and contingent assets are reviewed at each balance sheet date.

#### **2.4.23 Significant accounting judgments, estimates and assumptions**

The preparation of the financial statements requires management to make judgments, estimates and assumptions that affect the reported amounts of revenues, expenses, assets and liabilities, and the accompanying disclosures, and the disclosure of contingent liabilities. Uncertainty about these assumptions and estimates could result in outcomes that require an adjustment to the carrying amount of assets or liabilities in future periods. Difference between actual results and estimates are recognized in the periods in which the results are known / materialized.

##### **Estimates and assumptions**

The key assumptions concerning the future and other key sources of estimation uncertainty at the reporting date, that have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities within the next financial year, are described below. The Company has based its assumptions and estimates on parameters available when the financial statements were prepared. Existing circumstances and assumptions about future developments, however, may change due to market changes or circumstances arising that are beyond the control of the Company. Such changes are reflected in the assumptions when they occur.

##### **a) Taxes**

Uncertainties exist with respect to the interpretation of complex tax regulations and the amount and timing of future taxable income. Given the wide range of business relationships and the long-term nature and complexity of existing contractual agreements, differences arising between the actual results and the assumptions made, or future changes to such assumptions, could necessitate future adjustments to tax income and expense already recorded. The Company establishes provisions, based on reasonable estimates, for possible consequences of audits by the tax authorities of the respective countries in which it operates. The amount of such provisions is based on various factors, such as experience of previous tax audits and differing interpretations of tax regulations by the taxable entity and the responsible tax authority. Such differences of interpretation may arise on a wide variety of issues depending on the conditions prevailing in the Company's domicile. Based on approved plans and budgets, the company has estimated that the future taxable income will be sufficient to absorb MAT credit entitlement, which management believes is probable. Accordingly, the Company has recognized MAT credit as an asset.

##### **b) Defined benefit plans (gratuity benefits)**

The Company's obligation on account of gratuity, compensated absences and present value of gratuity obligation are determined based on actuarial valuations. An actuarial valuation involves making various assumptions that may differ from actual developments in the future. These include the determination of the discount rate, future salary increases and mortality rates. Due to the complexities involved in the valuation and its long-term nature, these liabilities are highly sensitive to changes in these assumptions. All assumptions are reviewed at each reporting date.

The parameter most subject to change is the discount rate. In determining the appropriate discount rate, the management considers the interest rates of government bonds in currencies consistent with the currencies of the post-employment benefit obligation.

The mortality rate is based on publicly available mortality tables. Those mortality tables tend to change only at interval in response to demographic changes. Increase in future salary and gratuity is based on expected future inflation rates. Further details about gratuity obligations are given in note 19.

#### **2.4.24 Non-current assets (or disposal groups) classified as held for sale:**

To classify any asset or disposal groups (comprising assets and liabilities) as "Asset / Disposal groups held for sale" they must be available for immediate sale and its sale must be highly probable. Such assets or group of assets / liabilities are presented separately in the Balance Sheet, in the line "Assets / Disposal groups held for sale" and "Liabilities included in disposal group held for sale" respectively. Once classified as held for sale, intangible assets and PPE are no longer amortised or depreciated. Such assets or disposal groups held for sale are stated at the lower of carrying amount and fair value less costs to sell.

## Notes to Consolidated Financial Statements for the year ended March 31 , 2021

### Fair value hierarchy

Level 1: Level 1 hierarchy includes financial instruments measured using quoted prices. This includes listed equity instruments and mutual funds that have quoted price. The fair value of all equity instruments which are traded in the stock exchanges is valued using the closing price as at the reporting period. The mutual funds are valued using the closing NAV and listed equity instruments are being valued at the closing prices on recognised stock exchange.

Level 2: The fair value of financial instruments that are not traded in an active market (for example, traded bonds, over-the-counter derivatives) is determined using valuation techniques which maximize the use of observable market data and rely as little as possible on entity-specific estimates. If all significant inputs required to fair value an instrument are observable, the instrument is included in level 2.

Level 3: If one or more of the significant inputs is not based on observable market data, the instrument is included in level 3. This is the case for unlisted equity securities, contingent consideration and indemnification asset included in level 3.

The Company's policy is to recognise transfers into and transfers out of fair value hierarchy levels as at the end of the reporting period.

### Note 38: Financial risk management objectives and policies

The Company's activities expose it to a variety of financial risks, including market risk, credit risk and liquidity risk. The Company's primary risk management focus is to minimize potential adverse effects of market risk on its financial performance. The Company's risk management assessment and policies and processes are established to identify and analyze the risks faced by the Company, to set appropriate risk limits and controls, and to monitor such risks and compliance with the same. Risk assessment and management policies and processes are reviewed regularly to reflect changes in market conditions and the Company's activities. The Board of Directors and the Audit Committee is responsible for overseeing the Company's risk assessment and management policies and processes.

The Company's financial risk management policy is set by the management. Market risk is the risk of loss of future earnings, fair values or future cash flows that may result from a change in the price of a financial instrument. The value of a financial instrument may change as a result of changes in the interest rates, foreign currency exchange rates, equity prices and other market changes that affect market risk sensitive instruments. The Company manages market risk which evaluates and exercises independent control over the entire process of market risk management. The management recommend risk management objectives and policies, which are approved by Senior Management and the Audit Committee.

#### a. Credit risk

Credit risk is the risk of financial loss to the Company if a customer or counterparty to a financial instrument fails to meet its contractual obligations, and arises principally from the Company's receivables from customers. Credit risk arises from cash held with banks as well as credit exposure to clients, including outstanding accounts receivable. The maximum exposure to credit risk is equal to the carrying value of the financial assets. The objective of managing counterparty credit risk is to prevent losses in financial assets. The Company assesses the credit quality of the counterparties, taking into account their financial position, past experience and other factors. The Company establishes an allowance for doubtful debts and impairment that represents its estimate of incurred losses in respect of trade and other receivables and investments.

The Company's exposure to credit risk is influenced mainly by the individual characteristics of each customer. The demographics of the customer, including the default risk of the industry and country in which the customer operates, also has an influence on credit risk assessment. Credit risk is managed through continuously monitoring the creditworthiness of customers to which the Company grants credit terms in the normal course of business. An impairment analysis is performed at each reporting date on an individual basis for major customers. The Company also hold security deposits for outstanding trade receivables. The history of trade receivables shows a negligible provision for bad and doubtful debts.

#### b. Liquidity risk

Liquidity risk is the risk that the Company will not be able to meet its financial obligations as they become due. The Company manages its liquidity risk by ensuring, as far as possible, that it will always have sufficient liquidity to meet its liabilities when due.

## Notes to Consolidated Financial Statements for the year ended March 31 , 2021

### Maturities of financial liabilities

The tables below analyze the company's financial liabilities into relevant maturity groupings based on their contractual maturities:

Contractual maturities of financial liabilities as at March 31, 2021	Total Carrying Value	On due within 1 year	Over 1 year Within 3 years	Over 3 year Within 5 years
Borrowings	2,19,58,43,124	2,18,28,68,361	1,15,68,750	14,06,014

<b>Total</b>	<b>2,71,52,93,381</b>	<b>2,47,07,17,309</b>	<b>20,94,27,721</b>	<b>24,26,659</b>

### c. Market risk

Market risk is the risk of loss of future earnings, fair values or future cash flows that may result from adverse changes in market rates and prices (such as interest rates, foreign currency exchange rates and commodity prices) or in the price of market risk-sensitive instruments as a result of such adverse changes in market rates and prices. Market risk is attributable to all market risk-sensitive financial instruments and all short term and long-term debt. The Company is exposed to market risk primarily related to foreign exchange rate risk, interest rate risk and the market value of its investments. Thus, the Company's exposure to market risk is a function of investing and borrowing activities.

### d. Foreign exchange risk

Foreign currency risk is the risk that the fair value or future cash flows of an exposure will fluctuate because of changes in foreign exchange rates.

The Company's foreign exchange risk arises from its foreign currency borrowings (primarily in USD). As a result, if the value of the Indian rupee appreciates relative to these foreign currencies, the Company's revenues measured in Indian rupees may decrease.

The following table sets forth information relating to foreign currency exposure (other than risk arising from derivatives disclosed below):

Particulars	As at March 31, 2021		As at March 31, 2020	
	USD/Euro	INR	USD/Euro	INR
Foreign Currency Exposures (USD)	3,29,689	2,42,33,712	3,02,877	2,10,75,735
Foreign Currency Exposures (Euro)	-	-	5,43,634	4,50,13,169
<b>Total</b>		<b>2,42,33,712</b>		<b>6,60,88,904</b>

The above foreign currency exposures are not hedged by the derivative instruments.

The sensitivity of profit or loss due to changes in the exchange rates arises mainly from non-derivative foreign currency denominated financial instruments (mainly financial instruments denominated in USD). The same is summarized as below:

Particulars	Impact on Profit	
	As at March 31, 2021	As at March 31, 2020
USD Sensitivity		
INR / USD – Increase by 10%	(24,23,371)	(21,07,573)
INR / USD – Decrease by 10%	24,23,371	21,07,573

## Notes to Consolidated Financial Statements for the year ended March 31 , 2021

### Interest rate risk

Interest rate risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market interest rates. However the company's exposure to foreign currency loan is of fixed interest rate.

The Company's investments in term deposits (i.e., margin money) with banks are for short durations, and therefore do not expose the Company to significant interest rates risk.

Profit or loss is sensitive to higher/lower interest expense from borrowings as a result of changes in interest rates.

Particulars	Impact on profit after tax	
	As at March 31,2021	As at March 31,2020
Interest rates – increase by 10%	(3,02,45,977)	(2,01,66,549)
Interest rates – decrease by 10%	3,02,45,977	2,01,66,549

### Note 39: Capital Management:

#### Risk Management:

The Company aim to manages its capital efficiently so as to safeguard its ability to continue as a going concern and to optimise returns to our shareholders and benefits for other stakeholders and maintain an optimal capital structure to reduce the cost of capital.

The capital structure of the Company is based on management's judgement of the appropriate balance of key elements in order to meet its strategic and day-to-day needs. We consider the amount of capital in proportion to risk and manage the capital structure in light of changes in economic conditions and the risk characteristics of the underlying assets. In order to maintain or adjust the capital structure, the Company may adjust the amount of dividends paid to shareholders, return capital to shareholders, issue new shares or sell assets to reduce debt.

The Company's policy is to maintain a stable and strong capital structure with a focus on total equity so as to maintain investor, creditors and market confidence and to sustain future development and growth of its business. The Company will take appropriate steps in order to maintain, or if necessary adjust, its capital structure.
